Engineering Abroad

Exchange Programs

Exchange programs allow students to pay in-state tuition and fees for courses taken at universities abroad.

Perth, Australia •
University of Western Australia
The University of Western Australia (UWA) is one of the top universities in the world, with over 24,000 undergraduate and graduate students in all disciplines, including many in engineering. UWA’s location on the beautiful Swan River in the heart of Perth offers an exciting combination of urban life and international flavor.

Prague, Czech Republic •
Czech Technical University
One of K-State’s most popular programs for engineering students, Czech Tech is one of the largest and oldest universities of its kind in Central Europe. It offers many English-language courses in a variety of engineering fields. Set in the picturesque and affordable Czech capital, Czech Tech provides students with access to many cultural opportunities and easy travel to the rest of the continent.

$10,502.00*

Hong Kong, Hong Kong S.A.R., China •
Hong Kong Polytechnic University
Hong Kong Polytechnic University teaches a wide range of English-language courses in engineering, and students may also take courses in Mandarin or Cantonese Chinese. Located in the glimmering, diverse metropolis of Hong Kong, you can sample countless dimensions of East Asian culture, language, and cuisine in one exciting place.

$11,696.00*

Giessen, Germany •
Justus Liebig University (University of Giessen)
Justus Liebig University’s full range of courses is similar to that of K-State, so engineering students can take classes taught in English and German. The historic city of Giessen—founded in the middle ages and damaged in the Second World War—offers both ancient and modern German cultural opportunities.

$10,349.00*

Querétaro, Mexico •
ITESM Querétaro
ITESM Querétaro offers a wide variety of classes taught in English, but many more are offered in Spanish, as well. The campus is strong in agronomy, food science, biotechnology, and engineering and offers classes in the sciences, humanities, and business. Students may be able to arrange internships for credit, as well. Querétaro is full of cultural opportunities and provides access to much of central Mexico.

$9,943.00*

Suwon, South Korea •
Ajou University
Established in 1973, Ajou University is a leading Asian research university with 14,000 students in ten colleges. Engineering is Ajou’s main strength, but it also offers courses in business and international studies. Located in Suwon, about 30km south of Seoul, the university enjoys an urban setting and a rich football culture.

$10,469.00*

Madrid, Spain •
Universidad Carlos III de Madrid
One of the finest universities in Spain, Universidad Carlos III de Madrid features a strong English-language engineering program. Located in the Spanish capital, it provides students with unparalleled access to Spanish history and culture. Most engineering courses are taught in English, but many other disciplines are in Spanish, so students may want a basic understanding of the language before they enroll.

$10,151.00*

Växjö, Sweden •
Linnaeus University
Linnaeus University offers many programs in English, such as software design, structural analysis, and signal processing. Slightly larger than Manhattan, the community of Växjö is a charming city with forests, lakes, and fountains and is situated between Copenhagen and Stockholm, making it accessible to Scandinavia.

Internship Programs

Choose a Pre-Arranged Internship Program
Internship programs provide housing, placement, insurance, and other benefits, often for a program fee.

World Endeavors
World Endeavors helps participants find internships that best fit their personal and professional goals. Programs are usually a minimum of two or three months long, and are offered in Africa, Asia, Australia, and the Pacific, Europe, and Latin America. Interns also have the opportunity to earn academic credit upon completing an internship. For the most current program details, visit www.worldendeavors.com.

Combine an Internship with Study Abroad
Combination programs may allow you to use financial aid if you earn credit for courses taken alongside an internship.

eLAP and Global Links by ISA
Combine an internship with study abroad by interning before, during, or after a program. Choose a program ranging from four to twelve weeks during a semester, summer, or intensive month. Earning academic credit is also possible with some programs. For more information, visit www.studycabroad.com/elap/.

Plan Your Own Internship
Contact internship networks or companies directly, or ask your Academic Advisor for suggestions.

IAESTE
This non-profit student exchange organization provides paid internships to students majoring in science, engineering, and the applied arts. Interns work at companies or universities on long or short-term projects. Specific locations and internship positions vary each year. Most placements are during the summer and range from eight to twelve weeks depending on the position. For more information, visit www.iaeste.org and www.iaesteus.org.
