LOCATIONS

K-State offers courses on the Manhattan and Salina campuses. Some programs and courses are also available through distance education in the Division of Continuing Education. ACADEMIC MAJOR

Pre-health and pre-law majors
Some disciplines in the pre-health professions program and the pre-law program require that students complete a bachelor's degree before seeking admission to professional schools. Pre-health and pre-law do not lead to degrees. You must declare a major in another discipline in addition to any pre-health or pre-law program. No specific major is preferred over another by professional schools, so choose a major that interests you.

Technology and aviation

Majors in the College of Technology and Aviation are offered only on the Salina campus; all others are offered only on the Manhattan campus with the exception of family studies and human services, which is offered at both campuses. You may complete some of your first-year courses on either the Manhattan or Salina campus.
