

International Baccalaureate

College credit for high school students

Kansas State University Manhattan, Kansas

The International Baccalaureate subject test is one way to earn college credit by examination. These exams are given in high schools by International Baccalaureate.

Students who have completed any of the following IB tests should have International Baccalaureate forward an official report of their scores to the Office of Admissions at Kansas State University in order to receive credit.

Students completing IB studies in the United States should request an official score report from:

Transcript Officer
International Baccalaureate North America
475 Riverside Drive, Suite 1600
New York, NY 10011

For complete information on policies and procedures for ordering transcripts, please visit the IB website at www.ibo.org/graduates/transcripts.

You must complete a minimum number of university general education (UGE) credit hours at K-State. IB hours may be considered "transfer credits" for purposes of the UGE policy. Consult your advisor.

K-State considers completion of the International Baccalaureate Diploma to be equivalent to a U.S. high school diploma. Students should contact the Office of Admissions for further information about admission requirements.
