D. Assessment of Student Learning Three-Year Plan

1. Student Learning Outcome(s)

- A. Understands how children grow and develop and possesses a high level of professional skills;
- B. Demonstrates that children differ in their approaches to learning and creates instructional opportunities that are equitable and are adapted to diverse learners;
- C. Demonstrate standards of ethical conduct which adhere to the Code of Ethics and Professional Responsibility developed by the National Association for the Education of Young Children

Special rationale for selecting these learning outcomes (optional):

The outcomes were selected because of their saliency across the early childhood education curriculum and serve as fundamental knowledge and performance indicators for professional educators as presented by the National Association for the Education of Young Children.
