 The following degree programs have missing Annual Progress Reports:

Number of annual progress reports attached ____

1. Summarize the Annual Progress Reports (APR) on Assessment of Student Learning in a short paragraph for each degree program. (Examples are enclosed and may be obtained from the Office of Assessment).

2. Analyze and provide general comments on the APR's for your college (For example: What common elements do you observe, e.g., measures used, forms of evidence? Did the assessment measures seem appropriate for the learning outcomes assessed? What are the general findings - for some programs without specific results, describe the general progress these programs have made on the initiatives included in the approved assessment plans. What issues emerge? What were some of the CARC's suggestions for improvement?)

3. Summarize the actions taken (or proposed) by degree programs in response to assessment results.

4. Identify best practices on assessment degree programs APRs. (For example, some departments may be exemplary on some elements, for instance, clarity of student learning outcomes, assessment methods, measures or forms of evidence used, use of findings, actions implemented in response to assessment results or review and feedback processes.)

5. How can the Office of Assessment support the assessment process in your college?
