

Northern Flint Hills

2009-2010 Bird Seed Fundraiser

Audubon Society

Orders Due:
September 21
November 23
January 25

Return with payment to:
Annie Baker
116 Parkview Drive
Junction City, KS 66441
(785) 375-4633
<bunny@k-state.edu>

Checks payable to:
Northern Flint Hills Audubon Society, or (NFHAS)

Bird Seed Descriptions:

BLACK OIL SUNFLOWER SEEDS are the preferred seed of many small feeder birds and attractive to more species than are striped sunflower seeds. Black oil supplies more energy per pound than striped.

STRIPED SUNFLOWER SEEDS contain larger hearts than black oil sunflower seeds and are particularly suitable for larger songbirds.

BLACK OIL SUNFLOWER SEED CHIPS are high in energy and can be used in tube feeders. It is especially liked by Pine Siskins. Hulled sunflower seed is consumed by a variety of birds, large- and small-beaked.

MILLET White millet is a favorite of most small-beaked ground-feeding birds; Red millet is also readily eaten. Quail, doves, juncos, sparrows, towhees, cowbirds, and red-winged blackbirds are attracted to millet.

CORN CHOP, or cracked corn kernels, like millet, is attractive to a variety of birds, especially ground-feeders. It also attracts crows, starlings, doves and squirrels.

THISTLE SEED is very attractive to Gold Finches and all other finches that are here over winter. It is excellent for tube feeders.

SAFFLOWER is a favorite with Cardinals, and squirrels really do not like it.

PEANUT PICKOUTS are chunks of peanut hearts and are very attractive to woodpeckers, nuthatches, chickadees, titmice, jays, wrens and more.

FLINT HILLS FEAST is the premium seed mix: 30% black oil sunflower seed, 20% striped sunflower seed, and 50% white proso millet (with no milo or fillers).

CHEAP CHEEP MIX is less expensive but still attractive to many species. It is 40 % cracked corn, 40 % white proso millet, and 20 % black oil sunflower (with no milo or fillers).

REGULAR FORMULA FINCH MIX consists of 50% sunflower chips and 50% thistle seed.

SUPER FORMULA FINCH MIX is a less expensive option for tube feeders than 100% thistle seed. It consists of 70% sunflower chips and 30% thistle. This is very popular with most tube feeding species.

SUET CAKES, in addition to having other nutritious ingredients, the main ingredient, high calorie beef fat, helps birds maintain body heat in cold winter months. Bird seed, berries and peanut butter are mixed in with suet. Enjoy woodpeckers, wrens, nuthatches and chickadees.

Sales Support Local Chapter Activities

As with all of our fund-raising activities, proceeds from our seed sales go toward supporting the educational and conservation projects of the local chapter. All of our labor is voluntary. Taxes are included in the price of our seed. Even though we are a not-for-profit organization, we are required to pay tax on any retail sales. Any additional donation you may wish to include with your order is appreciated.

Quality Seed, Easy Handling

The products we offer are high quality seeds. Our mixes were created to satisfy the needs of local bird populations at reasonable costs. We have tried to make it easy for you to purchase the amount of seed you want without having to handle heavy, awkward bags. Our seed comes in 10, 25, and 50 pound bags. We try to obtain the seed in paper bags whenever possible.

Northern Flint Hills

2009-2010 Bird Seed Fundraiser

Audubon Society

Pick Up:
 October 3
 December 5
 February 6

Location:
 Saturdays, 8:30 a.m. to 11:30 a.m.
 UFM, 1221 Thurston, Manhattan
Thank you for your order & support!

Volunteers welcome! Help unload the delivery truck at 7:45 a.m., or volunteer throughout the morning. Contact Annie Baker.
