

Name Lynn E. Hancock

Title Assistant Professor

Publications

Hynes, W.L., Hancock, L.E., and Ferretti, J.J. 1995. Analysis of a second bacteriophage hyaluronidase gene from *Streptococcus pyogenes*: evidence for a third hyaluronidase involved in extracellular enzymatic activity. *Infect. Immun.* 63(8):3015-3020.

Bogie, C.P., Hancock, L.E., and Gilmore, M.S. 1995. The *Enterococcus faecalis* cytolysin determinant and its relationship to those encoding lantibiotics. *Dev. Biol. Stan.* 85:627-634.

Hancock, L.E. and Gilmore, M.S. 1997. Identification of a highly conserved lipopolysaccharide (LPS) modification operon in *Enterococcus faecalis*. *Adv. Exp. Med. Biol.* 418:1049-1050.

Coburn, P.S., Hancock, L.E., Booth, M.C., and Gilmore, M.S. 1999. A novel means of self-protection, unrelated to toxin activation, confers immunity to the bactericidal effects of the *Enterococcus faecalis* cytolysin. *Infect. Immun.* 67:3339-3347.

Callegan, M.C., Jett, B.D., Hancock, L.E., and Gilmore, M.S. 1999. Role of hemolysin BL in the pathogenesis of extraintestinal *Bacillus cereus* infection assessed in an endophthalmitis model. *Infect. Immun.* 67:3357-3366.

Hancock, L.E. and Gilmore, M.S. 2002. The capsular polysaccharide of *Enterococcus faecalis* and its relationship to other polysaccharides in the cell wall. *Proc. Natl. Acad. Sci. USA* 99:5474-5479.

Hancock, L.E. and Perego, M. 2002. Two-component signal transduction in *Enterococcus faecalis*. *J. Bacteriol.* 184:5819-5825.

Hancock, L.E., Shepard, B.D., and Gilmore, M.S. 2003. Molecular analysis of the *Enterococcus faecalis* serotype 2 polysaccharide determinant. *J. Bacteriol.* 185:4393-4401.

Hufnagel, M., Hancock, L.E., Koch, S., Thielacker, C., Gilmore, M.S., and Huebner, J. 2004. Serologic and genetic diversity of capsular polysaccharides in *Enterococcus faecalis*. *J. Clin. Microbiol.* 42:2548-2557.

Hancock L.E. and Perego M. 2004. The *Enterococcus faecalis* *fsr* two-component system controls biofilm development through production of gelatinase. *J Bacteriol.* 186:5629-5639.

Hancock L.E. and Perego M. 2004. Systematic inactivation and phenotypic characterization of two-component signal transduction systems of *Enterococcus faecalis* V583. *J Bacteriol.* 186:7951-7958.

- Brunsing R.L., La Clair C., Tang S., Chiang C., Hancock L.E., Perego M., and Hoch J.A. 2005. Characterization of sporulation histidine kinases of *Bacillus anthracis*. *J Bacteriol.* 187: 6972-6981.
- *Del Papa M. F., *Hancock, L.E., Thomas, V.C. and Perego M. 2007. Full Activation of *Enterococcus faecalis* Gelatinase by a C-Terminal Proteolytic Cleavage. *J. Bacteriol. Bacteriol.* 189:8835-43. * authors contributed equally to this work
- Brown, Z., Ponce, A., Lampi, K., Hancock, L., and Takemoto, L. 2007. Differential Binding of Mutant (R116C) and Wildtype AlphaA Crystallin to Actin. *Current Eye Research.* 32(12):1051-4.
- Thomas, V.C. and Hancock, L.E. 2008. Regulation of autolysis-dependent extracellular DNA release by *Enterococcus faecalis* extracellular proteases influences biofilm development. *J Bacteriol.* 190:5690-8.
- Thurlow, L.R., Weise, T.J. and Hancock, L.E. The genetic basis for capsular polysaccharide production in *Enterococcus faecalis* serogroups C and D. In preparation.
- Thomas, V.C. and Hancock, L.E. The role of fratricide in *E. faecalis* biofilm development. In preparation.
- Thomas VC, Hancock LE. 2009. Suicide and fratricide in bacterial biofilms. *Int J Artif Organs.* 32(9):537-442.
- Thurlow LR, Thomas VC, Fleming SD, Hancock LE. 2009. *Enterococcus faecalis* capsular polysaccharide serotypes C and D and their contributions to host innate immune evasion. *Infect Immun.* 77(12):5551-7

Book Chapters

- Hancock, L.E. and Gilmore, M.S. 2000. Pathogenicity of Enterococci. In: *Gram-Positive Pathogens*; V. Fischetti, R. Novick, J. Ferretti, D. Portnoy, and J. Rood (eds). American Society for Microbiology, Washington D.C. p. 251-258.
- Coyette J. and Hancock, L.E. 2002. The Enterococcal Cell Wall. In: *Enterococci: Pathogenesis, Molecular Biology, Antimicrobial Resistance and Infection Control*; M. Gilmore, P. Couvalin, D. Clewell, G. Dunny, B. Murray, and L. Rice (eds). American Society for Microbiology, Washington D.C. p. 177-218.
- Hancock L.E., and Gilmore, M.S. 2006. Pathogenicity of Enterococci. In: *Gram-Positive Pathogens*; V. Fischetti, R. Novick, J. Ferretti, D. Portnoy, and J. Rood (eds). American Society for Microbiology, Washington D.C. p. 299-306.
