

Name: Theodore J. Morgan

Title: Assistant Professor

Publications:

- Teixeira, K.R.S., T. Morgan, D. Meletzus, R. Galler, J.I. Baldani, and C. Kennedy. 1999. Identification, sequencing and structural analysis of a *nifA*-like gene of *Acetobacter diazotrophicus*. *An Acad Bras Cienc.* 71: 521-30.
- Teixeria, K.R.S., M. Wulling, T. Morgan, R. Galler, E. Zellermann, J.I. Baldani, C. Kennedy, and D. Meletzus. 1999. Molecular analysis of the chromosomal region encoding the *nifA* and *nifB* genes of *Acetobacter diazotrophicus*. *FEMS Microbiology Letters* 176: 301-309.
- Bronikowski, A.M., T.J. Morgan, T. Garland Jr., and P.A. Carter. 2002. Anti-oxidant gene expression in active and sedentary house mice (*Mus domesticus*) selected for high voluntary wheel-running behavior. *Genetics* 161: 1763-1769.
- Morgan, T.J., T. Garland Jr., B.L. Irwin, J.G. Swallow, and P.A. Carter. 2003. The mode of evolution of molecular markers in populations of house mice under artificial selection for locomotor behavior. *J Heredity* 94: 236-242.
- Bronikowski, A.M., P.A. Carter, T.J. Morgan, T. Garland Jr., N.E. Ung, T.D. Pugh, R. Weindruch, and T.A. Prolla . 2003. Lifelong voluntary exercise prevents age-related alterations in gene expression in the heart. *Physiological Genomics* 12: 129-138.
- Morgan, T.J., T. Garland Jr., and P.A. Carter. 2003. Ontogenies in mice selected for high voluntary wheel running activity. I. Mean ontogenies. *Evolution* 57: 646-657.
- Morgan, T.J., M.A. Evans, T. Garland Jr., J.G. Swallow, and P.A. Carter. 2005. Molecular and quantitative genetic divergence among populations of house mice with known evolutionary histories. *Heredity* 94: 518-525.
- Mackay, T.F.C., S.L. Heinsohn, R.F. Lyman, A.J. Moehring, T.J.Morgan & S.M. Rollmann. 2005. Genetics and genomics of *Drosophila* mating behavior. for joint publication: In J. Hey, W.M. Fitch, F.J. Ayala, eds. *Systematics and the Origin of the Species. On Ernst Mayr's 100th Anniversary.* National Academies Press and PNAS 102: 6622-6629.
- Morgan, T.J. and T.F.C. Mackay. 2006. Quantitative trait loci for thermotolerance phenotypes in *Drosophila melanogaster*. *Heredity* 96: 232-242.
- Bronikowski, A.M., T.J. Morgan, T. Garland Jr. and P.A. Carter. 2006. The evolution of aging and age-related physical decline in mice selectively bred for high-voluntary exercise. *Evolution.* 60: 1494-1508.
- Carbone, M.A., K.W. Jordan, R.F. Lyman, S.T. Harbison, J. Leips, T.J. Morgan, M. DeLuca, P. Awadalla, and T.F.C. Mackay. 2006. Phenotypic variation and natural selection at *Catsup*, a pleiotropic quantitative trait gene in *Drosophila*. *Current Biology.* 16: 912-919.

Rollmann, S.M., M.M. Magwire, T.J. Morgan, E.D. Özsoy, A. Yamamoto, T.F.C. Mackay, and R.H. Anholt. 2006. Pleiotropic fitness effects of the *Tre1/Gr5a* region in *Drosophila*. *Nature Genetics*. 38: 824-829.

Wilson, R.H., T.J. Morgan, and T.F.C. Mackay (in review) High resolution mapping of quantitative trait loci affecting increased life span in *Drosophila melanogaster*. *Genetics*. 173: 1455-1463.

Jordan, K.W., T.J. Morgan, H.M. Patch, T.F.C. Mackay. 2006. Quantitative trait loci for locomotor behavior in *Drosophila melanogaster*. *Genetics*. *Genetics* 174: 271-284.

Edwards, A.C., S.M. Rollmann, T.J. Morgan, and T.F.C. Mackay. 2006. Quantitative genomics of aggressive behavior in *Drosophila melanogaster*. *PLoS Genetics*. 2: 1386 -1395.

Jordan, K.W., M.A. Carbone, A. Yamamoto, T.J. Morgan, and T.F.C. Mackay (2007) Quantitative genomics of locomotor behavior in *Drosophila melanogaster*. *Genome Biology* 8: R172doi:10.1186/gb-2007-8-8-r172

Nachappa, P., D.C. Margolies, J.R. Nechols, and T.J. Morgan (in review) Response of a complex foraging phenotype to selection on its component traits. *Evolution*.
