

Job Search Resources for ANTHROPOLOGY Majors

Anthropology is the study of the origin and the physical, social, and cultural development and behavior of humans. They may study the way of life, archaeological remains, languages, music, art, architecture, or physical characteristics of people in various parts of the world. Some compare the customs, values, and social patterns of different cultures. Anthropologists usually concentrate in socio-cultural anthropology, archaeology, linguistics, or biological-physical anthropology.
