

Job Search Resources for **BIOCHEMISTRY** Majors

Biological Chemistry is the study of the chemistry of living cells, tissues, organs and organisms. It entails using chemistry techniques to understand and manipulate the molecules in living systems.

Occupations to Consider

Analytical Chemist	Clinical Chemist	Medical Tech	Registered Nurse
Associate Chemist	Clinical Technician	Microbiologist	Rehabilitation Aide
Assistant Chemist	Dentist	Pharmacist	Research Assistant
Biochemical Toxicologist	Entomologist	Paramedic	Research Chemist
Biologist	Freelance Writer	Pharmacologist	Research Zoologist
Biostatistician	Genomic Researcher	Physical Therapist	Science Teacher
Chemist	Health Administrators	Physician X-ray Tech	Veterinarian
Chiropractor	Laboratory Tech	Professor	

Potential Employers

Analysis and Testing	Educational Institutions	Medical Supplies	Private Practices
Armed Services	Engineering Firms	National Institute of Health	Public Health Departments
Biotechnology	Environmental Protection Agency	National Science Foundation	Quality Control
Chemical Industry	Food and Drug Administration	Non-Profit Organizations	Research and Development
Chemical Manufacturers	Food Processors	Nursing Homes	Scientific Journals
Consulting	Glass Industry	Packaging Industry	Technical Consulting Firms
Cosmetic Manufacturers	Health Care Facilities	Paint Industry	Technical Sales/Marketing
Department of Agricultural Development	Hospital Laboratories	Petroleum Industry	Textiles Industries
Drug Industry	Machine Industry	Pharmaceutical Sales	University Laboratories
	Management	Private Organizations	

Recent Kansas State University Graduates

Medical Center of Aurora	Sigma-Aldrich Corp	University of Kansas Medical Center	Williams Food
Mercy Regional Health Center	StoneCreek Family Physicians
