

Job Search Resources for CHEMISTRY Majors

Chemistry is a major branch of the physical sciences and involves the study of substances and energy. It focuses on their composition, characteristics, changes, reactions, uses, and their benefits and dangers to humankind. Chemists investigate properties of matter and the laws that come into play when elements combine.

Occupations to Consider

Agricultural Scientist	Cytotechnologist	Mathematician	Pollution Control
Agronomist	Dentist	Medical Librarian	Product Tester
Anesthesiologist	Dietician	Metallurgist	Quality Assurance Mgr
Assayer	Drug/Food Analyst	Molecular Biologist	Radiologist
Astronomer	Educator	Medical Librarian	Risk Manager
Biochemist	Environmentalist	Museum Curator	Sanitarian
Biomedical Engineer	Food Scientist	Nutritionist	Science Lab Tech
Brewer Lab Assistant	Forensic Chemist	Oceanographer	Soil Scientist
Cephalometric Analyst	Genetic Counselor	Optometrist	Staff Chemist Underwater Tech
Ceramic Engineer	Geneticist	Patent Attorney	Toxicologist
Chemical Engineer	Geologist	Pharmacist	Vector Control Assist
Chemical Oceanographer	Geophysicist	Pharmacologist	Veterinarian
Chemist	Hydrologist	Physicist	Water Quality Analyst
Chemistry Professor	Industrial Hygienist	Planner	Wood Scientist
Crime Lab Analyst	Inorganic Chemist	Plastics Engineer	
Criminologist	Internist	Police Chemist	

Potential Employers

Biotechnology Firms	Cosmetic Companies	Hospitals	Pharmaceutical Companies
Beverage Companies	Engineering Firms	Medical Libraries	Professional/Technical Journals
Chemical Industries	Federal and State Government	Medical Supply Companies	Research Firms
Colleges/Universities	Food/Product Companies	Newspapers/Magazines	Textile Manufacturers
Consulting Firms			

Recent Kansas State University Graduates

Continental Analytical Service	Hospira	Stormant Vail Health Care
Honeywell	Midwest Research Institute
