

Kansas State University Counseling Services, in support of the overall mission of the University, provides the highest standard of professional services to help all students reach their full potential – personally, academically, and socially. Within an accepting, sustaining and compassionate setting, we attend to the psychological needs of our students to alleviate concerns, facilitate problem solving, promote wellbeing, and enhance success.

At Counseling Services we value our multicultural campus community and, thus we provide culturally sensitive and relevant services. While appropriately protecting confidentiality, we work collaboratively with other entities, both on and off campus, to foster a safe and healthy environment. During times when a critical event occurs, we are ready to offer timely response through consultation, outreach, and follow-up to lessen trauma and promote resolution.
