RE: Fall 2009 20th Day Enrollment Status of New Full-time Freshmen Entering Fall 2008

The attached spread sheet is the final version of the table I discussed in Tuesday's First Tuesday meeting. I have combined a couple of departments and corrected a typo or two.

In reading it:

Column 1 indicates the college and the numbers which follow in the shaded row, report the summary data for that college.

Column 2 indicates the department.

Column 3 reports the base number of new, full-time freshmen enrolling in the college/department in the Fall of 2008.

Columns 4 and 5 report the number of Fall 2008 students who did not return to the university for the Fall 2009. Column 5 reports the percent of base –the attrition percentage in other words.

Column 6 reports the number of students returning for Fall 2009 still enrolled in the Fall 2008 college/department.

Column 7 reports the number of students returning for Fall 2009 who had left their initial department but were now enrolled in a different department within their initial college.

Columns 8 – 15 indicate the number of Fall 2008 students who returned for Fall 2009 but were now enrolled in a different college.

Please give me a call if you have questions or would like a paper copy.
