

Kansas State University Ecological Genomics Institute

Request for Funding: K-State Faculty Travel Grant

Supported by K-State Targeted Excellence

The purpose of this funding opportunity is to provide travel support to Ecological Genomics Institute faculty to attend national and international professional meetings. Our goal is to offer ample opportunity and support to disseminate ECOGEN research to the scientific community. The topic of oral or poster presentations must be related to Ecological Genomics research.

Please note: These funds are not available to support attendance at the ECOGEN Symposium in Kansas City.

Requester's Name, E-mail address, Department, and Position
