Material Safety Data Sheet
For Coatings, Resins and Related Materials

Section 1 - Chemical Product/Company Information
Product Name: Polyurethane Floor Finish Satin
Identification Number: 225
Product Use/Class: POLYURETHANE
Manufacturer: Deft, Inc. (CAGE CODE 33461)
17451 Von Karman Ave
Irvine, Ca. 92614

Section 2 - Hazards Identification
*** Emergency Overview ***: Combustible liquid. Harmful by inhalation, in contact with skin, and if swallowed. Amber liquid with solvent odor. Contact with eyes or skin causes irritation.

Effects Of Overexposure - Eye Contact: Exposure to liquid, aerosol, or vapors may cause irritation, tearing, redness, and swelling accompanied by a stinging sensation. Damage may occur to the cornea or lens of the eye. Direct eye contact may cause irritation.

Effects Of Overexposure - Skin Contact: Prolonged and repeated skin contact may cause dermatitis, drying, and defatting due to the solvent properties. Direct skin contact may cause irritation. Symptoms may include swelling, redness, and rash.

Effects Of Overexposure - Inhalation: Respiratory depression, failure, or death may result from overexposure. Inhalation may cause headaches, difficult breathing, and loss of consciousness. Inhalation may cause irritation to the respiratory tract (nose, mouth, mucous membranes) & acute nervous system depression characterized by the following progressive steps: headache, dizziness, staggering gait, confusion, unconsciousness, or coma.

Effects Of Overexposure - Ingestion: May result in possible corrosive action in the mouth, stomach tissue and digestive tract. Vomiting may cause aspiration of the solvent, resulting in chemical pneumonitis. Ingestion may cause a burning sensation in the mouth and esophagus. Ingestion may cause gastrointestinal irritation, abdominal pain, nausea, vomiting and diarrhea.

Effects Of Overexposure - Chronic Hazards: A component(s) has been shown to cause blood abnormalities, lower activity of certain immune system cells, effects the hearing, mild reversible liver effects, central nervous damage, and cataracts in laboratory animals. Prolonged contact will cause drying and cracking of the skin, due to defatting action. Skin sensitization, asthma or other allergic responses may develop. Listed as a Carcinogen: NTP? : No, IARC Monographs? : No, OSHA regulated? : No.

Primary Route(s) Of Entry: Skin Contact, Skin Absorption, Inhalation, Ingestion, Eye Contact

THE ABOVE LISTED PRODUCTS ARE ON THE TSCA INVENTORY LIST. ALSO ANY UNLISTED INGREDIENTS.

Section 4 - First Aid Measures
First Aid - Eye Contact: If eyes are irritated from airborne exposure, move to fresh air. If material gets into eyes, flush with water immediately for 15 minutes. Consult a physician. Hold eyelids open to rinse out the entire eye.

First Aid - Skin Contact: In case of contact, immediately flush skin with plenty of water and wash affected areas thoroughly with soap and water. Remove contaminated clothing and shoes.

First Aid - Inhalation: Asthmatic type symptoms may develop and maybe immediate or delayed by several hours. In the case of inhalation of aerosol/mist consult a physician, if necessary. Move to fresh air in case of accidental inhalation of vapors.

First Aid - Ingestion: Do not induce vomiting. Do not give anything to an unconscious person. Obtain medical help.

Section 5 - Fire Fighting Measures
Extinguishing Media: Alcohol Foam, Carbon Dioxide, Dry Chemical, Foam, Water Fog, Water Spray

Unusual Fire And Explosion Hazards: Toxic gases may form when product burns. Application to hot surfaces requires special precautions. Remove all sources of ignition. Fire or intense heat may cause violent rupture of packages. Vapors can form an ignitable mixture with air. Vapors can flow along surfaces to a distant ignition source and flashback. Keep containers tightly closed. Isolate from heat, sparks, electrical equipment and open flame.

Steps To Be Taken If Material Is Released Or Spilled: Evacuate all non-essential personnel. Remove all sources of ignition. Ventilate area. Contain and remove spilled material with inert absorbent and non-sparking tools. Dike to prevent entering any sewer or waterway. Use personal protective equipment as necessary.

Handling: Do not drill, solder, pressurize, grind, cut, weld, or braze empty container. Do not expose empty container to static electricity, heat, flame, sparks, or any source of ignition. Use only in ventilated areas. Open doors and windows. Handle in accordance with good industrial hygiene and safety practice. Keep product and empty container away from heat, open flames, hot surfaces and sources of ignition.

Storage: Do not store with oxidizers. Store in buildings designed to comply with OSHA 1910.106. Avoid storing near high temperatures, fire, open flames, and spark sources. Keep containers upright to prevent leakage and tightly closed in a dry, cool and well-ventilated place.

Engineering Controls: Local ventilation of emission sources may be necessary to maintain ambient concentrations below permissible OSHA exposure limits. Remove all ignition sources (heat, sparks, flame, and hot surfaces).

Respiratory Protection: A respirator that is recommended or approved for use in an organic vapor environment (air purifying or fresh air supplied) is necessary. Observe OSHA regulations for respirator use. Ventilation should be provided to keep exposure levels below the OSHA permissible limits.

Skin Protection: Chemical-resistant gloves (cotton, neoprene, rubber, polyethylene) should be used to prevent skin contact.

Eye Protection: Wear safety eyewear (safety glasses, safety glasses with side-shields, chemical goggles, or face shields) to prevent eye contact.

Other protective equipment: Long sleeve and long leg clothing is recommended. Remove and wash contaminated clothing before reuse or discard.

Hygienic Practices: Wash hands before breaks, eating, smoking, and at the end of the workday.

Boiling Range (°F): N.D. - 396
Odor: Solvent odor
Appearance: Amber liquid
Solubility in H2O: Insoluble
Freeze Point: N.D.
Vapor Pressure: N.D.
Physical State: Liquid

Vapor Density: Heavier than air
Odor Threshold: N.D.
Evaporation Rate: 0.1 x n-Butyl Acetate
Specific Gravity: 0.906
PH: N.A.
Viscosity: Thin liquid to heavy viscous material

(See section 16 for abbreviation legend)
Section 11 - Toxicological Information

Product LD50: N.E. Product LC50: N.E.

Section 12 - Ecological Information

Ecological Information: No Information.

Section 13 - Disposal Information

Section 14 - Transportation Information

DOT Proper Shipping Name: Consumer Commodity Packing Group: N.A.
DOT Technical Name: N.A. Hazard Subclass: N.A.
DOT UN/NA Number: N.A.

Section 15 - Regulatory Information

CERCLA – SARA Hazard Category
This product has been reviewed according to the EPA 'Hazard Categories' promulgated under Sections 311 and 312 of the Superfund Amendment and Reauthorization Act of 1986 (SARA Title III) and is considered, under applicable definitions, to meet the following categories: IMMEDIATE HEALTH HAZARD, CHRONIC HEALTH HAZARD, FIRE HAZARD

SARA Section 313:
This product contains the following substances subject to the reporting requirements of Section 313 of Title III of the Superfund Amendment and Reauthorization Act of 1986 and 40 CFR part 372:

<table>
