Material Safety Data Sheet

IDENTITY (As Used on Label and List)
Acrylic Semi-Gloss Enamel, White

Section I
Manufacturer’s Name: KANSAS CORRECTIONAL INDUSTRIES
Emergency Telephone Number: CHEMTREX #800-424-9300
Address (Number: Street, City, State, and Zip Code): KANSAS DEPARTMENT OF CORRECTIONS
Telephone Number for Information: 913-727-3249
Date Prepared: October 22, 1999
Signature of Preparer (optional): LANSING, KANSAS 66043

Section II – Hazardous Ingredients/Identify Information
Hazardous Components (Specific Chemical Identity. Common Name(s) OSHA PEL ACGIH TLV CAS % Optional

IF PAINT IS TINTED ADD:
ETHYLENE GLYCOL 50 ppm 100 mg/m³ 107-21-1 <3
IRON OXIDE 10 mg/m³ 5 mg/m³ 1332-37-2 <4

N.A. = not applicable or not available

Section III – Physical/Chemical Characteristics
Boiling Point: 212°F
Specific Gravity (H₂O = 1): 1.3
Vapor Pressure (mm Hg.): <20
Melting Point: N.A.
Vapor Density (AIR = 1): >1
Evaporation Rate (Butyl Acetate = 1): <1

Solubility in Water: Dispersible
Appearance and Odor: opaque white liquid; slight acrylic odor

Section IV – Fire and Explosion Hazard Data
Flash Point (Method Used): >200°F TCC
Flammable Limits: LEL N.A. UEL N.A.

Extinguishing Media: Water, foam, and dry chemical extinguishing media may be used to neutralize fires involving this product

Special Fire Fighting Procedures: Firefighters must wear self-contained breathing apparatus with full face piece operated in pressure demand or positive pressure mode. Avoid allowing run-off from fire control to contaminate public waterways. Use water to cool containers to prevent possible rupture.

Unusual Fire and Explosion Hazards: Residues from incomplete burning of this material are minimally capable of supporting combustion. Dusts are not expected to be capable of forming explosive mixtures with air but normal precautions should be followed when clearing any fire debris.

OSHA 174, Sept 1985
Section V – Reactivity Data

<table>

Incompatibility (Materials to Avoid)

- Organic solvents, acids and oxidizing agents

Hazardous Decomposition or Byproducts

- Carbon monoxide, nitrogen compounds

Hazardous Polymerization

- May Occur: Contacts with acids
- Will Not Occur: XXX

Section VI – Health Hazard Data

<table>

<tbody>
<tr>
<td></td>
<td>YES</td>
<td>YES</td>
<td>POSSIBLE</td>
<td>EYES: Irritation and damage. SKIN: toxic by absorption; irritation and possible liver/kidney damage; see ingestion. INGESTION: may cause red blood cell hemolysis, liver/kidney damage; moderately toxic. INHALATION: irritation to the respiratory tract; effects like ingestion. Chronic effects from vapor exposure and irritation include ingestion effects and lung damage. Potential reproductive disorders.</td>
</tr>
</tbody>
</table>

Carcinogenicity: NTP? NOT LISTED IARC Monographs? NO OSHA Regulated? NO

Signs and Symptoms of Exposure EYES: redness and watering of eyes. SKIN: redness and irritation; possibly contact dermatitis. INGESTION: possibly nausea, cramps, vomiting; other stomach and intestinal disturbances. INHALATION: severe irritation, possibly coughing or sneezing.

Medical Conditions Generally Aggravated by Exposure EYES: conjunctivitus and prior irritation. SKIN: dermatitis; see ingestion. INGESTION: any gastrointestinal disorder; any blood, liver/kidney condition; sore throat from colds or influenza infections. INHALATION: any prior condition.

Emergency and First Aid Procedures EYE CONTACT: remove contact lenses, if worn; rinse eyes with water holding eyelid open. SKIN CONTACT: rinse skin with water. INGESTION: drink large amount of water. INHALATION: remove to fresh air. If exposure was severe CONTACT A PHYSICIAN IMMEDIATELY.

Section VII – Precautions for Safe Handling and Use

Steps to Be Taken in Case Material is Released or Spilled Use absorbant. Contain spills such that material does not enter public waterways through storm sewers or landfill runoff. Use personal protective devices to avoid contact.

Waste Disposal Method Dilute, rinse water should be handled by a licensed treatment facility. Solid waste is preferably incinerated.

Precautions to Be Taken in Handling and Storing Ammonia vapors may accumulate in head space of containers. Use caution when opening.

Other Precautions This material may be harmful to aquatic life forms due to its glycol/preservative content.

Section VIII – Control Measures

Respiratory Protection (Specify Type)

Not generally required during normal use and handling. The need for respiratory protection should be evaluated if this material is sprayed or heated in poorly ventilated area. For vapor concentrations above TLV use NIOSH approved organic vapor respirator.

<table>

General ventilation is recommended during normal use, local ventilation may be required during certain operations to prevent inhalation of vapors.

Protective Glove: Chemical resistant, nitrile, neoprene or rubber required

Eye Protection Chemical goggles or safety glasses

Other Protective Clothing Or Equipment Wear protective clothing. available eyewashes and safety showers recommended.

Work/Hygienic Practices Wash hands before eating or using the restroom.
