6. Old Business
   A. Stand Alone Minor implementation
      No new information.
   B. Honorary Degrees – proposal with revisions from September 21, 2010
      Prior to the meeting today, it was suggested by a Graduate School member that it may be good to add the President of the Graduate Student Council to the membership of the committee who makes award recommendations to the university president. Discussion took place about the committee membership and whether the suggestion was valid and necessary. After this was thoroughly discussed by Academic Affairs, it was decided this position did not need to be added at this time. Easton mentioned concern about the second and third bullet underneath the Eligibility section which discussed retired faculty versus faculty who have been away from K-State for 5 years. This was discussed among committee members. Is there a conflict between these two? There was reluctance to not have bullet number two. It was decided there will be enough feedback in the coming years that edits can be made as they are deemed necessary. A couple editorial changes were made. Under Policies for Selection Process, bullet one, second sentence the first “A nomination from originate from” was changed to “A nomination may originate from”. On page 2, under Procedures for Selection of a Candidate, “Student Senate President” was changed to “Student Body President” to reflect the correct title. Spears motioned to approve the outlined procedures with the two changes made. Motion was seconded and carried.
   C. Appropriate use of Topics courses
      This item was originally brought up because of RRES topics courses and use of them and these are being taken care of and will be submitted as new courses under the current course approval process. The question was raised however, whether a university policy should be created to address these types of courses. Could these lead to conflict between colleges? It is possible, but it wouldn’t be a big issue. However, a brief policy to create clarification on how topics courses should be handled seems wise. Bennett offered to work with a couple others and craft language that would be available to use by colleges. Other course issues were touched on, for example problems courses. Bennett and Spears will work on language to bring back to Academic Affairs.
