None

Please provide the sponsors of a proposed change with any information regarding fiscal or programmatic impact on your department, program or students.
EXPEDITED COURSE PROPOSAL (600-999)

College of Architecture, Planning & Design PhD Program

From:  
ARCH 655 – International Field Study (Var. ) I, II, S

Group observation of design examples (ancient or modern) of a selected 
region, conducted in situ, to study significant aspects of environment,
culture and technology as relating to design solutions.

To:  
ENVD 655 – International Field Study (3) I, II, S

Group observation of design precedents (ancient to present day) of a 
selected region, conducted in situ to study significant aspects of 
environment, culture and technology as expressed in vernacular and 
designed environments.

Rationale:  For many years, the course was offered using a Department of 
Architecture prefix. The course has evolved and is a required course for 
all CAPD students who are enrolled in the Italian Studies Programs at 
Santa Chiara and Orvieto. Each year the course is taught by faculty from 
different degree programs. Changing the course prefix to ENVD more 
accurately reflects the interdisciplinary nature of the course content.

Effective Date:  Spring 2010
NON-EXPEDITED COURSE PROPOSAL (600-999)
College of Architecture, Planning & Design

New Course

Add Course: ENVD 650 – Italian, Art, History and Culture (3) I, II, S

The course provides a synthesis of art, history, design and culture in the context of the Italian Peninsula and the Mediterranean region over time. Integration of material covered in lectures with field trips in Italy is expected.

Rationale: The course is taught by a professor residing in Italy, in the Italian Studies Program, in Orvieto. We have been using ENVD 699, a problems course number, for three years as the program and course offerings were established. The use of the 699 course number also causes accounting problems for the students’ degree audit and for iSIS.

Effective Date: Spring 2010
