

MINUTES
Faculty Senate Executive Committee
Monday, April 26, 2010 3:30 pm
Union Room 213

Present: Allen, Bontrager, Cauble, Dodd, Fairchild, Gehrt, Guzek, Hoag, Hughey, King, Knopp, LeHew, Nichols, Ross, and Vontz

Absent: Haub, Reynolds, Schultz, Turnley

Proxies: Eckels and Holcombe

Guests: Al Cochran

1. President LeHew called the meeting to order at 3:35 pm.
2. The March 29, 2010 Executive Committee minutes were approved as submitted.
3. Report from Standing Committees and Student Senate
 - A. Academic Affairs Committee – Barney King
 1. Items for May Faculty Senate consent agenda – pages 2-12 (**including Attachment 1**)

King moved that items on pages 2-12 be included on the May Faculty Senate consent agenda. Motion carried. Academic Affairs decided to delay working on the Honorary Degree proposal until it is approved by the Board of Regents and see what is included in the Board proposal. There was also discussion about K-State 8 and a request was sent back to the committee to see if the departments had a chance to review the tagging. Concern was also expressed with assessment because there was not a baseline to use for comparison. Capstone courses were also a concern whether departments have had a chance to review. Nichols asked about the status of College Algebra. King reported that it is at the CAPP committee and they are working on a solution.
 - B. Faculty Affairs Committee – Judy Hughey/Kaleen Knopp
 1. Modified Instructional Duties – **Attachment 2**

Hughey reported that the Modified Instructional Duties document is not as comprehensive as it could be since it only addresses the instructional duties, but it is an excellent start. Hughey expressed her appreciation to Senior Associate Provost Dyer for all of her hard work. Dyer’s attendance at the Faculty Affairs meeting was helpful and fostered excellent discussion. The Faculty Affairs Committee proposed some modifications which Dyer and Provost Mason accepted. Hughey moved to place the Modified Instructional Duties document on the May Faculty Senate discussion agenda. Hughey and Knopp thought it was important for the Executive Committee to see the changes made by Faculty Affairs. There was discussion about considering the document for first reading to give Senators more time to review the document. That issue was also discussed by Faculty Affairs and they thought the May meeting would have better attendance. Hughey’s goal is to implement the document by next fall. Cauble noted that is important that each Caucus distribute the document and discuss it. A question was asked about a definition of the dependents who are covered in the policy. Cauble asked if it was similar to the definition used for tenure delays. Hughey replied that the definition of dependents would be consistent. Motion passed. Candace noted that she would distribute the document in advance of the meeting to allow Senators more time to review the document. LeHew asked about including Dyer at the meeting. Knopp mentioned that it was helpful to have her attendance at the Faculty Affairs Committee meeting.
 2. Dependent Tuition Waiver Resolution – **Attachment 3**

Hughey expressed her appreciation for all the individuals that were involved with drafting the resolution. The resolution includes the action items from the task force recommendations. Hughey moved for acceptance of the resolution and to place it as an action item on the Faculty Senate discussion agenda. Dodd supported the resolution but would like to see us pursue not requiring the dependent to be claimed on the employee's tax form. Gehrt noted that there are tax implications if the dependent is not claimed for tax purposes. Cauble asked if the University is required to report it as a benefit. Gehrt noted that the university is responsible for reporting the benefit and to also reduce the appropriate withholding amounts. Hughey clarified that this resolution was to address the recommendations provided in the task force report. She also reported that a list is being prepared to continue identifying issues that need to be addressed to enhance the policy. LeHew reported that the Council of Faculty Senate Presidents is recommending that a system wide dependent tuition waiver proposal be developed. Vontz reiterated that we need to continue with the current recommendation. Motion passed.

B. Faculty Senate Committee on Technology – Tweed Ross
Ross reported there were no items to add to the agenda.

C. Faculty Senate Committee on University Planning – Tom Vontz
Vontz reported that Jeffery Morris will attend the next FSCOUP meeting to begin discussion of communications and marketing issues.

D. Student Senate – Kyle Reynolds
No report.

4. Announcements

A. President/Faculty Senate Leadership Council

LeHew reported that Morris had volunteered to attend the next Faculty Senate meeting to discuss future ways to communicate with newspapers and editors. She asked if there was interest now. Cauble commented that there is much on our plates and may be better to have him attend later in the year. Knopp suggested waiting until June to provide information to our new senators. LeHew reported that Leadership had a positive meeting with Schulz and Morris in how to address the faculty salary issue. The Mercury included both Schulz and LeHew's letters to the editor. Cauble noted that Schulz's letter emphasized how much the university provides to the community's economic development and that the salaries cannot be compared to local salaries. Vontz noted that a lot of the funding for salaries is provided from other funding sources than state general fund and both he and LeHew expressed their appreciation to Dodd for her contribution in drafting the letter. Knopp noted that Faculty Affairs sent a thank you letter to both Schulz and Morris for their positive contribution. LeHew remarked that last spring Dodd asked about initiating an interview process in selecting ombudspersons. LeHew reported that this issue was addressed with Provost Mason who is supportive of adjusting the process to have short interviews for the applicants. Provost Mason is also supportive of a better training program. LeHew asked if the Executive Committee is interested in having short interviews with the applicants for ombudsperson this year. Hughey recommended having a subcommittee of the executive committee (interview committee) to meet with the applicants. Dodd reiterated that this is an important position and it is important to see the applicant's values that are not represented on paper. Knopp asked if it would be appropriate to have past ombudspersons on the committee of four. Ross questioned who makes the selection and what is the Provost's role. Candace noted that the replacement for this year's ombudsperson is an unclassified person that is appointed the first day of the fall semester. LeHew recommended having one past ombudsperson represented on the committee with three representatives from the executive committee.

B. Caucus Chair reports

Gehrt reported that the General University Caucus met with President Schulz this past December and suggested an unclassified awards recognition program. A proposal has been prepared and will be presented by Gehrt to the President's Cabinet in the near future.

5. New Business

A. Officers of Faculty Senate for 2010-2011

1. Secretary
2. President-Elect

Information on the individuals interested in running for office were included with the agenda items.

B. Approve Richard Zajac to replace Fred Guzek for the remainder of his term on Faculty Senate (2010-2011).

LeHew noted that Guzek will be leaving and Zajac was the next individual within their caucus with the highest vote. Guzek moved to replace himself with Zajac. Seconded by Hoag. Motion carried.

6. For the Good of the University

Cauble recognized Dodd for her recent award of the University of Distinguished Professor.

7. The meeting adjourned at 4:50 pm.

Next meeting: Monday, May 24, 2010; 3:30 p.m., Union room 213

Submitted by Cindy Bontrager, Faculty Senate Secretary

ACADEMIC AFFAIRS

Course and Curriculum Changes – Proposed consent agenda items

A. Approve to place the following undergraduate and graduate course and curriculum items as well as the graduation list items on the May Faculty Senate consent agenda (refer to approval sheets for further details)::

1. Undergraduate course and curriculum changes:

COURSE CHANGES AND ADDITIONS:

College of Agriculture (March 23, 2010 approval sheets)

Department of Animal Sciences and Industry

Changes to:

ASI 318 Fundamentals of Nutrition

Department of Grain Science and Industry

Add:

GRSC 210 CAD Flow Sheets for Grain Processes

GRSC 310 Materials Handling

GRSC 590 Grain Science Problems

CURRICULUM CHANGES:

Department of Grain Science and Industry

Changes to BS in Bakery Science & Management – Production Management Option:

---------------------------------	--

RATIONALE: The Department of Grain Science is revising the curriculums in all 3 of its undergraduate degree programs to insure all of its students have at least one common department course in each semester of their freshman and sophomore years. Previously, students were not taking department courses in all semesters of their first 2 years. Thus, this is also a tool to help with retention in the programs. Additionally, the department has developed a list of common “core courses” required in each of its 3 degree programs and aligned them for recommended sequencing in the individual degree curriculum guides.

IMPACT: These changes should not affect other units as the major changes and all new classes are for students in the Department of Grain Science and Industry. All courses listed for other units have been previously used as required or elective courses.

EFFECTIVE DATE: Fall 2010

RATIONALE: The Department of Grain Science is revising the curriculums in all 3 of its undergraduate degree program to insure all of its students have at least one common department course in each semester of their freshman and sophomore years. Previously, students were not taking department courses in all semesters of their first 2 years. Thus, this is also a tool to help with retention in the programs. Additionally, the department has developed a list of common “core courses” required in each of its 3 degree programs and aligned them for recommended sequencing in the individual degree curriculum guides.

IMPACT: These changes should not affect other units as the major changes and all new classes are for students in the Department of Grain Science and Industry. All course listed for other units have been previously used as required or elective courses.

EFFECTIVE DATE: Fall 2010

B.S. in Milling Science & Management – Operations Option; Management Option

RATIONALE:

The Department is dropping its Management Option in the Milling Science and Management degree program and retaining its Operations and Chemistry Options. Students entering the program will now have a choice of 2 options instead of 3. This decision was based on evaluation of knowledge and skills needed by graduates based on graduate and employer feedback. These changes have little or no effect outside the department.

The Department of Grain Science is also revising the curriculums in all 3 of its undergraduate degree program to insure all of its students have at least one common department course in each semester of their freshman and sophomore years. Previously, students were not taking department courses in all semesters of their first 2 years. Thus, this is also a tool to help with retention in the programs. Additionally, the department has developed a list of common “core courses” required in each of its 3 degree programs and aligned them for recommended sequencing in the individual degree curriculum guides.

IMPACT:

These changes should not affect other units as the major changes and all new classes are for students in the Department of Grain Science and Industry. All courses listed for other units have been previously used as required or elective courses. Letters have been sent to the departments of Chemistry (Dr. Eric Maatta), Biochemistry (Dr. Michael Kanost) and Physics (Dr. Dean Zollman) advising them of the changes between required and elective classes.

EFFECTIVE DATE: Fall 2010

2. Graduate course and curriculum changes approved by the Graduate Council on April 6, 2010 (parentheses indicate page number the change can be located on in the grad council agenda):

COURSE ADDITIONS:

College of Veterinary Medicine (February 4, 2010 approval sheets)

- CS 782 Equine Medicine Elective (11)
- CS 784 Advanced Soft Tissue Surgery (11)
- CS 785 Veterinary Care and Management of South American Camelids (11)
- CS 786 The Learning Curve of Equine Practice (11)
- CS 826 Contemporary Issues in Veterinary Medicine (11)
- CS 827 Health and Management of Llamas and Alpacas (11)
- CS 880 Design and Interpretation of Production Livestock Field Trials (12)
- CS 881 Veterinary Ophthalmic Surgery Techniques (12)
- DMP 730 Cross-Course Integration III (12)
- DMP 740 Cross-Course Integration IV (12)
- DMP 804 Ecotoxicology (13)
- DMP 845 Food Safety Risk Analysis (13)

Curriculum Additions

Graduate School – Master of Public Health (March 11, 2010 approval sheets)

- Concurrent BS/MPH (or BA/MPH) degree programs (14)

College of Agriculture (October 19, 2009 approval sheets-GC agenda has revised version)

- Graduate Certificate in Agricultural Resources & Environmental Management (15-25)

GRADUATION ADDITIONS AND POSTHUMOUS DEGREE:

December 2006

Rebecca Jean Townsend, Bachelor of Science, College of Arts and Sciences

August 2009

Natalie Marie Francel-Stone, Bachelor of Music, College of Arts and Sciences

Posthumous degree request, May 2010:

David Sewell, Bachelor of Science, College of Education

Background: Mr. Sewell was a high quality individual and a popular student; he was in good standing academically at the time of his death on August 8, 2009.
