Faculty Senate Leadership Report  
November 2004  
(Selected Items of Interest)

**University Distinguished Professors' Selection Process:** Provost Nellis will be soliciting the involvement of faculty members from the Big Twelve as part of the evaluation process. Faculty Senate Leadership Council members recommended that those individuals be involved from the very beginning of the selection process – that they be treated as an extension of the current UDP Subcommittee on Selection.

**Tuition Assistance/Faculty Salary Enhancements:** Provost Nellis has set aside \$500, 000 to fund a tuition assistance program (assuming that the BOR approves the enabling policy) and \$500,000 to fund the second year of the Faculty Salary Enhancements. Given that the state has not yet established budgeting parameters, these are rough budgeting estimates only.

**Payroll Options for 9-Month Employees:** In response to questions from the Arts and Sciences Caucus, the Faculty Senate Leadership Council has been exploring payroll options that would enable 9 month employees to have their salary spread over 12 months. Under the current system, employees can have their salary deposited to up to six institutions with up to ten accounts in each, either by percent of pay or dollar amount. This enables an employee to open an interest bearing account in the same bank or in a different bank to which a certain portion of the 9-month checks could be deposited. The Division of Human Resources will assist interested employees in calculating the portion of the 9-month checks that have to be set aside to cover the summer months and in arranging the direct deposit of this amount in whatever banks or accounts the employees chooses.

**Mandatory Holiday Leave:** The policy requiring employees to take leave during the week between Christmas and New Years dates back to the time in which the university was trying to conserve on energy costs. At this stage, there appears to be very limited energy costs associated with this closure and central administration is willing to reexamine the current mandatory leave policy for calendar year 2005. The issue is being referred to Faculty Affairs for more extended discussion.

**Concurrent Enrollment:** This has been a very contentious issue at the Board of Regents. Administrative representatives from the community colleges are happy with the current policy, which leaves administrative of these courses up to each institution. With the number of the courses growing in response to local school district and parental pressure, faculty representatives from the universities want to impose some quality controls, principally through the credentials of the faculty who are allowed to teach the courses and skills/abilities of the high school students who are allowed to take the courses. COFSP has taken the position that faculty members who teach the courses need to have a master's degree which includes 18 graduate credit hours in the field in which he/she is teaching, that students should have a 21 on the ACT or 980 on the SAT, and that no more than 24 semester credit hours be transferable to either a community college or university.

**ACCESS Us:** This is a BOR effort to improve access to four-year degree programs for those living in southwest Kansas. Ft. Hays State University has tried some pilot programs in business, technology, and nursing. These have met with limited response, despite the documented needs in those areas. It appears that institutions are beginning to explore the delivery of programs via technology rather than through face-to-face instruction offered through partnerships with area community colleges. Dr. Betty Stevens in the Division of Continuing Education represents Kansas State University in these efforts.

**Classroom Access:** In response to faculty members' difficulties in gaining access to classrooms to conduct help sessions on Sunday, Dr. Rawson has requested that any faculty member needing such access call the Campus Police. The Campus Police will dispatch an officer, who has been instructed to open the door and, at some point later, return to ensure that the classroom has been again secured. Faculty members need to realize that: (1) the officer will have no knowledge of whether that classroom has been reserved for a later time, and (2) the faculty member is responsible for the security of the room during the time he/she is using it.

**ATTACHMENT 2**  
Board of Regents Report  
November 17-18, 2004  
(Selected Items of Interest)

**SCOCAO/COCAO**

A compromise for two of the three issues related to concurrent enrollment was reached. Faculty who teach concurrent enrollment classes must either: (1) have a Master's of which 18 credit hours are in the discipline being taught OR (2) use the same final exam and apply the same scoring rubric for the assigned course as used in the on-campus class. Students who are allowed to take a concurrent enrollment class must have an acceptable score or sub-score on a standardized test (ACT, SAT, or placement test). Each institution offering concurrent enrollment courses is allowed to set standards consistent with their other enrollment policies. The concurrent enrollment policy should be finalized in December and sent forward to the System Council of Presidents for their approval in January.

The members of COCOA unanimously passed a policy enabling each institution to develop its own tuition assistance policy, subject to Board of Regents approval. The policy will move forward for approval by the Council of Presidents in December and Board of Regents in January.

There was extended discussion over the lack of any ruling related to the sharing of information across the Regents' system. Various student privacy laws at the Federal level appear to block the system from tracking student success from one institution to another. The Board of Regents will be asked to assist in mobilizing our legislative delegation in Washington to help us obtain a ruling.

**BOR: Items Passed Under Consent Agenda**

Accepted the Performance Agreements for the 2005 calendar year.

Approved technical change to the Spoken English Language Competency policy, acknowledging the change in scoring used with the SPEAK test. A minimum score of 50 on either the Test of Spoken English or the SPEAK test is now accepted. The Council of Presidents indicated that the recent legislative audit conducted on several of the campuses will probably result in some additional changes.

First reading of the FY2006 Housing Fee Adjustments for state universities. Proposed increases range from 3.5% at Wichita State University to 7.0% at Emporia State University. Kansas State University is proposing a 5.0 % increase.

**BOR: Items Considered Under Discussion Agenda**

Discussed the 2005 BOR Legislative Initiatives. Of the 17 items listed on that agenda, those of interest to KSU include: (a) efforts to secure funding of a deferred maintenance backlog, (b) interest ownership on tuition and fees generated by each institution, (c) continued funding of Kan-ed through FY2008, (d) authorization for KU to implement an alternative to Kansas Civil Service, (e) modifications to Regents' system retirement plans, (f) elimination of the \$1 million Research Foundation Capital Improvement project cap, and (g) sale of parcels of land in the Manhattan Industrial Park, adjacent to Meadowlark Hills, and at Cheney Reservoir in Kingman County.

Approved entering into a consultant contract for (1) developing an Investment Committee to oversee and implement an Investment, (2) establishing benchmarks, investment objectives, and performance standards for the Retirement plans, and (3) evaluating and monitoring the investment options made available to unclassified employees.
