

FSCOT Minutes  
March 15, 2011

Attending: Rintoul, Raine, Knackendoffel, Keen, Stadlander, Molidor, Grinter, Stafford, Willbrant

- 1) Approval of minutes from previous meeting - approved
- 2) Reports on
  - a) Faculty training for access to grant accounting information (Willbrant) – Survey of individuals involved will be done, and more information will be passed to FSCOT at a later meeting. Timeliness may not be adequate for some users, who may receive more timely information from unit accounting staff. But the availability of this information will be valuable to many faculty members who take the time to learn and understand the system.
  - b) E-portfolio task force (Rintoul) – FSCOT member Bormann is the chair of the committee, and it has met twice so far (once to receive the charge from the provost, and once to start to define the task. Time frame is relatively short; we will be submitting a report in May. Some colleges have already implemented various solutions; we will be looking at some of those in the next meetings as well.
- 3) Background information on intellectual property issues with sites like MyRibit.com (Raine) - Issues of legality (intellectual property rights) and honor council implications need to be resolved. Can syllabus language be developed that will allow faculty members to retain control over some of this information? We will devote some of the next meeting to this task.
- 4) New business – security training now has text-only option.
