

Minutes
Faculty Senate Committee on Technology
April 3, 2012 – Big 12 room

Attending – Bormann, Crawford, Lindshield, Grinter, Knackendoffel, Molidor, Raine, Stavropoulos, Rintoul, Stadlander

- 1) Minutes of meeting of 2/21/2012 approved
- 2) Updates
 - a. Email provider assessment: Nothing new here; should meet before next FSCOT meeting and should have a report then
 - b. E-portfolio progress: CBA has renewed the license for Digital Measures for another year; additional information should be forthcoming soon.
 - c. Grades in iSIS and KSOL for students who are on federal financial aid AND who get an “F” in a class: ready to go at this time, webpage text should be finalized soon.
 - d. iSIS/textbook reporting: Resolution has been received and some feedback has been received as well. Path forward from here will probably involved continued discussion with appropriate administrative folks.
 - e. Advising screens in iSIS could be better (Bormann). Can we hotlink from the course name in iSIS to the catalog so that pre-reqs can be more easily determined for courses? Request noted by Grinter and hopefully can be implemented
 - f. Web tutorial for password and account security should be available for review soon.
- 3) Adjourned
