Sherry Haar
Andrew McKittrick
Kent Nelson

- Approve Minutes
 - Approved minutes from the May 3, 2016 meeting
- Total Rewards – Rob Caffey
 - Rob Caffey led a discussion on how Total Rewards and current budget issues are negatively affecting his department.
- Phishing – Joe Lear
 - ITS is utilizing the tools available in Office 365 to combat phishing scams. Once all tools are in place, we could see a 30 to 40% decrease in spam attempts.
 - iTac is working on different ways to education users
- Canvas Update – Scott Finkeldei
 - There was an interface change at the end of May that caused very issues.
 - Scantron is the main priority of the OME office at this time. Making sure that it works correctly for all academic department needs.
 - K-State Online Classic is no longer being backed up as changes can no longer be made in the system. In order to really see the financial benefits of switching systems we need to sunset the old system. Once a feasible way of allowing everyone to get data out and stored is found a date will be decided upon to stop access to the data by anyone other than OME staff.
