Kansas State Greek Community Events Resolution

Whereas, The behavior demonstrated and language used by hosts, judges, participants, and attendees at past Greek community events, including but not limited to Homecoming events, Greek Week events, and Greek 101 presentations, has at times been offensive, not in good taste, and generally not representative of the values of the Greek community at Kansas State University,

Whereas, The Greek community has long struggled to rid itself of stereotypes about irresponsible behavior, substance abuse, and human rights issues,

Whereas, Interfraternity Council and Panhellenic Council sponsored events are very public in nature, and should be conducted in a manner consistent with the core values of the Greek community at Kansas State University,

I hereby let it be resolved by the Kansas State University Interfraternity Council and Panhellenic Council that, Hosts, judges, speakers, participants and attendees at future Greek community events refrain from consuming alcohol or other substances prior to the event, refrain from using offensive language, including sexual innuendo, and refrain from referring to or encouraging irresponsible behavior.

I hereby let it be further resolved that hosts, judges, speakers, participants, and attendees at future Greek community events be made aware of this resolution and the potential impacts of their behavior and language, both positive and negative, upon the Greek community.
