Resolution Regarding Facebook and MySpace
Proposed to PHC on November 20, 2006

As undergraduate members of fraternal organizations, we will consider the following when choosing topics to display on Facebook, MySpace and other similar mediums.

1. Anyone serving as an elected or appointed representative of PHC executive council or on any of its auxiliary groups will display appropriate topics that are reflective of fraternal values on their Facebook, MySpace, and other similar mediums.

2. The activities, and quotes posted will avoid phrases that discuss drinking, drugs, sexual activities, racist, and homophobic remarks. The pictures posted will be reflective of someone appropriately representing PHC and its committees, and should not include pictures of underage drinking, drugs or sexual activities.

3. The Panhellenic Council reserves the right to review applicants for executive board positions, Rho Gammas, Greek Week Steering Committee, and any other potential committee members’ Facebook, or MySpace account in order to check for appropriateness.

4. PHC exec and its committee members must hold themselves to high standards as we are seen as role models for our chapters and the K-State greek community.

5. Greek community members who are aware of inappropriate postings have an obligation to report to PHC.

6. Inappropriate postings may be grounds for non-selection and dismissal.
