

## First-Year Seminar Course List: Fall 2008

New freshmen starting in the Fall 2008 semester will have the opportunity to be part of a pilot study for First-Year Seminars (FYS) at K-State.

The academic content of the course will be the same as the sections offered outside the pilot study. The seminars will be unique in that the maximum enrollment will be 22 students and limited to freshmen only. An emphasis will be placed on communication, critical thinking, and community building. Students will benefit from a learning environment that is more conducive to interactive learning and application of concepts.

We encourage you to recommend these courses to the students you advise. Please help us maintain the integrity of the study by recommending only one course for each new student.
