

## *The Seaton Globe*

**Kansas State University**

**Department of Geography**

**24 March 2008**

This newsletter is viewable on the department's website ([www.k-state.edu/geography](http://www.k-state.edu/geography)). Note that links found in the newsletter will work if you go to the online version.

### **Department Presentation**

March 28                      Dr. Steve Walsh: "Land Use Dynamics and Drivers of Change Along the Equator," 3:30 pm, Little Theater, KSU Student Union.

### **Events and Other Things of Note**

Iris Wilson, a junior majoring in Geography and NRES, is one of five students nominated by KSU for prestigious Morris K. Udall Scholarships. The congressional scholarship honors Udall, a former congressman from Arizona, for his legacy of public service. Recipients must seek either a career related to environmental protection or be Native Americans or Native Alaskans seeking careers in health care or tribal policy. K-State students have won 18 Udall Scholarships since that national scholarship program began. K-State is tied for third among state schools and tied for fifth among all colleges and universities in the national Udall competition. Best wishes for success Iris!!!

On March 13<sup>th</sup>, **Dr. Kendra McLauchlan** gave a talk entitled: "The promises and pitfalls of reconstructing terrestrial nutrient cycling from decades to millennia" for the Ecology and Evolutionary Biology graduate program of the KSU Division of Biology.

Internship positions for geography students with GIS emphasis are available in the Farm Service Agency. For more information, please check: <http://www.usda.gov/da/employ/intern.htm>.

Please contact Jeremy Aber ([aber@ksu.edu](mailto:aber@ksu.edu)) or Bimal Paul ([bkp@ksu.edu](mailto:bkp@ksu.edu)) if you have items for the Globe.
