Request for Participation

A researcher investigating geospatial thinking of undergraduate students has requested participation in a short survey:

“Geospatial Thinking is spatial thinking at the level of Earth, at different scales. Geospatial thinking is using Earth space to structure problems, find answers, and express solutions.
Participate in an important national study on ‘Geospatial Thinking of Undergraduate Students in Public Universities in the United States.’ Complete a 10-minute online survey on geospatial thinking at this link: https://www.surveymonkey.com/s/GeospatialThinkingSurvey.”

**Student Travel Funding for AAG**
AAG-GTU Student Travel Awards provide travel subsidies of $200 to help undergraduate and graduate student members of GTU attend AAG meetings. GTU student members in need of AAG-GTU travel funds can submit applications online at the GTU website. The deadline is 1 Feb.
