Who Should Attend?

This event is intended for girls currently in the 6th, 7th and 8th grades. Girls can come on their own or with a group of friends from school or their community.

Teachers are also invited to attend to observe activities that can be used in their classrooms. Parents who choose to attend should plan to observe activities with a group of girls that does not include your daughter.

When & Where?

Saturday, November 21st - we will begin the day at 9am and end at 4pm. All events will take place at the K-State campus in Manhattan.

Who will I hang out with at the event?

Girls from all over Kansas attend our events. You will be divided into small groups and will be chaperoned by K-State students during the entire event. Come prepared to meet new friends!

Groups will be formed by age group. **Sixth and Eighth graders will not be in groups together.** If you have a friend coming and would like to be in a group together (keeping in mind the rule above) just let us know.

What will we do?

Scientists and engineers are involved in the design and production of all the products we use every day and the buildings we live, work and play in. At this event we are going to explore the smallest room in the house – the bathroom! We will discover how the work of scientists and engineers are involved in everything from the makeup we use to the toilet!
