K-STATE

Environmental Health & safety

University compliance with the various environmental protection laws. Topics covered by these laws include hazardous waste management, underground and aboveground storage tanks, spill response, the University air permit, and EPA Spill Prevention, Control and Countermeasure Plans.

K-STATE

Environmental

Responsible for compliance of occupational safety and health, radiation safety, fire safety, environmental health and other issues concerning the safety and health of faculty, staff, students and visitors at Kansas State University. Department personnel work closely with the University Police to provide a safe and secure campus.
