Subject: Extending Probationary Status -- Rescission

The layoff of a K-State classified employee at the Harvey County Experiment Field in Hesston, in the College of Agriculture, Research and Extension, Department of Agronomy, is complete and therefore my previous memorandum dated April 23, 2009, regarding new hires or rehires with a pay grade of 16 or below not being granted permanent status is hereby rescinded effective June 14, 2009. The employee subject to layoff did not exercise his right to 'bump' any probationary employee and claim the subsequent available position. Those employees whose probationary period was extended during this time will have permanent status effective June 14, 2009. If you have any questions, please call Kristi Fronce at 785- 532-6277. Thank you.
