

**Central Management Information Systems (CMIS)
Advisory Committee**

Charge:

The Committee will act in an advisory capacity to the Vice President of Administration and Finance and the Executive Computing Committee. Considering the mission of the university and all affected users, the Committee will receive, review, and recommend project proposals; discuss, propose, and advocate short- and long-term direction; and monitor progress of active central management information systems projects. By periodically assessing progress, the Committee will be able to make informed recommendations to further progress, redirect efforts, or discontinue a project.

Membership:
