Key KAHBH Tasks

- Resource identification and collection
- Training and education
- Development of Annex to Kansas Emergency Operations Plan, KAHBH Plan, and KAHBH Operations Manuals
- State-wide network recruitment and coordination
- Preparedness, response, and recovery activities
What is the Kansas All-Hazards Behavioral Health Program?

The Kansas All-Hazards Behavioral Health Program (KAHBH) is a project funded by a contract between Kansas State University and the Kansas Department of Social and Rehabilitation Services, Mental Health Services, and Kansas Department of Health and Environment. The Program focuses on providing preparedness, response, and recovery activities through a crisis response plan in meeting the mental health and substance abuse needs at state and local levels.

What is the Purpose of KAHBH?

KAHBH provides State-wide organization and coordination for behavioral health response to disaster and other all-hazards events.

State-level role of KAHBH

The KAHBH Plan will address behavioral health preparedness activities, response coordination, and recovery services in the event of a Presidentially declared disaster.

During a disaster in Kansas, the Kansas Mental Health Authority through SRS collaborates with the Kansas Department of Emergency Management, Local Community Mental Health Centers, and FEMA in a Presidentially declared disaster.
