No useful habitat information, n=1.  
No specimens of this species were captured.  
No specimens of this species collected.

### **10 - Post Oak-Blackjack Oak Woodland**

[#Reviewer1]

Platt: Mostly restricted to sandy areas with good populations of frogs and toads. Very locally distributed in western KS. Would not expect it in typical shortgrass prairie. Found in open woodland, but not usually in

### **11 - Cottonwood Floodplain Woodland**

[#Reviewer1]

Platt: Mostly restricted to sandy areas with good populations of frogs and toads. Very locally distributed in western KS. Would not expect it in typical shortgrass prairie. Found in open woodland, but not usually in

Distler: Observed in riparian cottonwoods at Field Station.
