Habitat Restrictions

Comments

Almost any aquatic situation from fast-flowing rocky streams and rivers to swamps, lakes, and marshes.

Distribution only

Distribution only

Distribution only

The northern water snake occurred commonly about creeks, rivers and small ponds and was less often seen in marshes or swampy places (p 129).

Distribution only

Distribution only

Fitch: A perennial occupant of our woodland pond on the Reservation; usually seen near the water or in it.

15 - Buttonbush (Swamp) Shrubland

[#Reviewer]

Distler: observed several times on trails through buttonbush creek borders (15) and cattail marsh (33).

31 - Freshwater Marsh

Collins, 1993
Gloyd, 1928

32 - Bulrush Marsh

Collins, 1993
Gloyd, 1928

33 - Cattail Marsh

Collins, 1993
Gloyd, 1928
[#Reviewer]

Distler: observed several times on trails through buttonbush creek borders (15) and cattail marsh (33).

39 - Pondweed Aquatic Wetland - not mapped

Collins, 1993
Gloyd, 1928

70 - Weedy Marsh

Collins, 1993
Gloyd, 1928

82 - Water (Lake)

Collins, 1993
Tihen and Sprague, 1939
Gloyd, 1928
Brumwell, 1951
Fitch, 1958

creeks, rivers, and larger ponds
mainly in vicinity of permanent water supply, either stagnant or running; in spring and autumn has been found along hilltop rock ledges far from water.

82 - Water (River)

Collins, 1993
Gloyd, 1928
Dice, 1923
Heinrich and Kaufman, 1985
Brumwell, 1951
Fitch, 1958

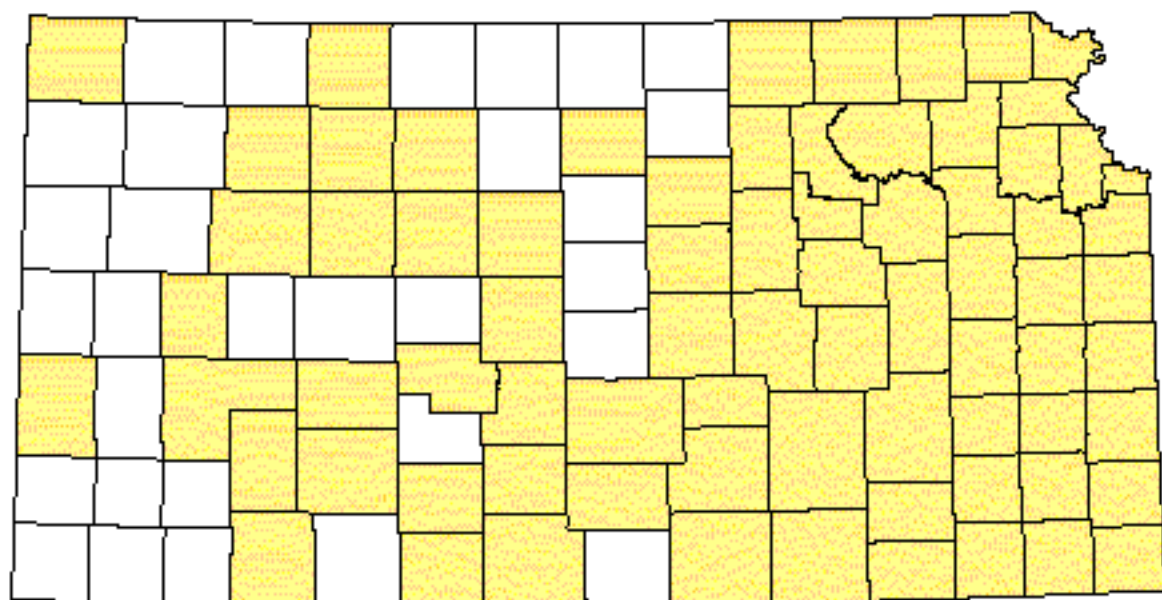

rivers and creeks
All sightings were in fast-flowing streams.
creeks, rivers, and larger ponds
mainly in vicinity of permanent water supply, either stagnant or running; in spring and autumn has been found along hilltop rock ledges far from water.
