ELEVATE YOUR PERSPECTIVE.

The University Honors Program, or UHP, encourages students to grow in the intellectual craft of scholarship. Through cultural and performing arts events, skill development workshops, travel opportunities and challenging coursework, UHP students develop intellectual curiosity about the world, its wonders and its complexity. The UHP challenges students to reach their full potential as scholarly, competent and fulfilled leaders.

UHP students enjoy unparalleled opportunities:

- Challenging honors courses featuring small class sizes,
- Priority enrollment each semester,
- Access to cultural events and the performing arts,
- A new curriculum that values both coursework and experiential learning,
- Extracurricular travel opportunities,
- Opportunities to publish your scholarly work in Crossing Borders: An Interdisciplinary Journal of Undergraduate Scholarship, and
- A coeducational, on-campus Honors House.

All students interested in elevating their educational perspectives should apply for the UHP via our online portal at k-state.edu/ksuhonors/hal. While demonstrated intellectual curiosity is most valued, general requirements include an ACT score of 29 or above and a high school GPA of 3.75 — 3.5 for transfer students — or higher. UHP students are expected to complete an orientation course, four additional honors courses, three co-curricular experiences and a scholarly project in one of four available tracks: research, international, professional and creative.
