   Not at all – 16% Somewhat – 32%  Confident - 32%  Very confident – 18%  N/A – 2%

*Total # of participants in SNAC presentations where evaluations were collected.

Improvements/Revisions during 2012-13 Academic Year:

- The SNAC Program Evaluation was revised to more accurately assess expected outcomes.
- Increased compliance with presentation protocol requiring peer educators to submit completed evaluations to advisor within 2 weeks after presentation date.

Assessment Goals for 2013-14:

- Further increase the number of presentations for which evaluations are collected.
- Explore methods to administer evaluations at presentations with large audiences (>40), in particular Greek houses and large academic courses in which the Lafene dietitian frequently presents to.
