

SUSTAINABILITY AT KANSAS STATE UNIVERSITY

Reduction Idea

A bright idea

- Approximately 485 walkway lights and 1,000 parking and street lights to be retrofitted with more energy efficient LED bulbs.

Estimated Savings

(per year)

- \$61,000

No more money down the drain

- Six wells to be drilled on campus, thereby reducing K-State's water bill to the city of Manhattan.

- \$367,000

Shutting down unnecessary costs

- All computers will be turned off in computer labs after closing hours.

- \$4,400

Total estimated savings per year: \$432,400
