

# Provost Lecture on Excellence in Scholarship

## LacY: The Great White Permease

Ron Kaback

Department of Physiology

University of California, Los Angeles

Wednesday, Oct 31

4:00 P.M.

TownHall Room

Leadership Studies Bldg

Refreshments at 3:30 P.M.

Dr. Kaback is Professor of Physiology, Microbiology & Molecular Genetics, and the Molecular Biology Institute at UCLA. He is the former Chair of Biochemistry at the Roche Institute of Molecular Biology, a member of the National Academy of Sciences, the American Academy of Arts and Sciences, the American Academy of Microbiology, and the American Biophysical Society. Dr. Kaback's research focuses on the structure and mechanism of energy-transducing membrane transport proteins.

Sponsored by  
the Department of Biochemistry,  
University Distinguished Professors  
and the Office of the Provost
