

UIDP WEBINAR – New NSF Funding Opportunity for Graduate Student Support

Learn about an exciting new NSF supplemental funding opportunity (NSF intern) for graduate students seeking career opportunities in any sector of the U.S. economy.

Upcoming Free Webinar

JULY 18, 2017, 1:00-2:30 PM EST

NSF currently invests in graduate student preparedness activities and has historically encouraged principal investigators (PIs) to include such activities in research proposals to NSF.

This webinar describes **new commitments and funding opportunities** to graduate students. More information about these funding opportunities can be found at

<https://www.nsf.gov/pubs/2017/nsf17091/nsf17091.jsp>

Presenter Prakash Balan

Prakash Balan joined NSF in 2011. He has 20 years of broad experience spanning R&D, new technology development and commercialization in both large and small entrepreneurial company environments. After a career with ARCO Chemical and Lyondell Chemical Company where he led innovation with several chemical technologies and was recognized with technology achievement awards for his significant contributions, he co-founded two successful companies, first an environmental engineering technology company and thereafter a biofuels company. Prakash holds a Ph.D. in Chemical Engineering from the Pennsylvania State University.
