Deadline: Varies

27-2 Leadership, Education, Disabilities Awareness, Business (State)

The State Department's Bureau of Education and Cultural Affairs is inviting applications for multi-phased multi-year exchanges of professionals, scholars, community leaders and policy advocates to promote political leadership, education, disability awareness and small business development in Near East, North African and South Asian countries. The Bureau is especially interested in projects that address priority themes as they relate to women. Projects strengthen the capacity of grassroots organizations, develop the skills of future political leaders and advance opportunities for individuals with disabilities, especially victims of civil wars and terrorism, by providing occupational training, improving access to services; and facilitating community action. Eligible countries are: Algeria; Bahrain; Egypt; Iran; Iraq; Israel; Jordan; Kuwait; Lebanon; Libya; Morocco; Oman; Qatar; Saudi Arabia; Syria; Tunisia; the United Arab Emirates; the West Bank and Gaza; Yemen; Afghanistan; Bangladesh; Bhutan; India; the Maldives; Nepal; Pakistan; and Sri Lanka. EDUCATION

27-3 Early Learning (HHS/ACF)

The Health and Human Services Department's Administration for Children and Families is inviting applications to develop, operate or enhance voluntary early learning programs to promote early childhood literacy. Applications must present results of a current assessment that documents the needs of young children and families and a local plan for addressing the most significant needs. Eligible recipients are local councils comprising representatives of local agencies, parents, other individuals concerned with early learning and community leaders. (FR 06/25/03)

Deadline: 8/6/2003

27-4 Technical Assistance and Dissemination to Improve Services and Results for Children With Disabilities - Projects for Children and Young Adults Who Are Deaf-Blind (ED)

The Assistant Secretary for Special Education and Rehabilitative Services invites applications for FY 2003 under the Special Education - Technical Assistance and Dissemination to Improve Services and Results for Children with Disabilities Program. This program provides technical assistance and information that 1) support States and local entities in building capacity to improve early intervention, educational, and transitional services and results for children with disabilities and their families; and 2) address goals and priorities for changing State systems that provide early intervention, educational, and transitional services for children with disabilities and their families. The absolute priority supports projects to build the capacity of State and local agencies, parents, and professionals to improve outcomes for children and young adults who are deaf-blind, and their families. ENGINEERING, MATHEMATICS & PHYSICAL SCIENCES

27-5 Multiple Corrosion Protection Systems for Reinforced Concrete

Bridge Components (DOT)

This Broad Agency Announcement identifies the Federal Highway Administration's (FHWA) need for carrying out systematic research in the development of cost-effective multiple corrosion protection systems and strategies for the construction of new reinforced concrete bridge components when exposed to adverse environments. The objective of this BAA research is to conduct a research study for making the existing ECR system more corrosion resistant by utilizing multiple corrosion protection strategy for ECR use in bridge decks as well as for bridge members in marine environments where abundant salt, moisture and high temperatures (tropical weather) are prevalent. Deadline: 8/4/2003

27-6 Epidemiologic Research on Health Effects of Long-Term Exposure to Ambient Particulate Matter and Other Air Pollutants (EPA)

The U.S. Environmental Protection Agency (EPA), as part of its Science to Achieve Results (STAR) program, is seeking applications for a prospective observational study of cardiovascular disease initiation and progression associated with long-term exposure to ambient particulate matter and other air pollutants in a population-based sample. This request for applications invites applications for prospective epidemiology studies using validated measures of subclinical disease to study the natural history of cardiovascular disease associated with long-term exposure to ambient particulate matter and co-pollutants.

Deadline: 7/24/2003

27-7 Synthesis of Highway Practice (NCHRP)

The National Cooperative Highway Research Program (NCHRP) announces new synthesis topics under Project 20-5, Synthesis of Information Related to Highway Problems. Each new synthesis topic will require an author (consultant, contractor). The synthesis topic titles are: 35-01 State Quality Assurance Programs; 35-02 Chip Seal Best Practices; 35-03 Practices in Crash Reporting and Processing; 35-04 Value Engineering Practices in Transportation; 35-05 Developing Transportation Agency Leaders; 35-06 Acquisition of

Access Rights; 35-07 Inspection and Maintenance of Cable-Stayed Bridges; 35-08 Comprehensive Investigation of Bridges with Fracture Critical Details; 35-09 Compliance with National Historic Preservation Act Requirements for Archeological Investigations and Mitigation; 35-10 Crash Risk Reduction for Aging Populations; 35-11 Links between Transportation and Economic Development; 35-12 Transportation Technology Transfer: Successes, Challenges, and Needs. Deadlines vary. The earliest is August 4 for State Quality Assurance Programs.

27-10 Research Proposals Using Ground-Based Analogs of Space Flight

This National Aeronautics and Space Administration (NASA) Research Announcement (NRA) solicits studies using ground-based analogs of space flight (e.g., bed rest, closed chamber studies) for the Biomedical Research and Countermeasures (BR&C) Program. The BR&C Program sponsors research which will lead to the development of countermeasures against the negative effects of space flight on humans. NRA-03-OBPR-06 (FBO 5/15/03)
