

Funding Bulletin

Funding Opportunities for Research, Instruction, Service, Creative Activities
Fellowships and International Programs

February 3, 2004

Vol. 13, No. 4

Program Information

To receive program descriptions and application forms for funding opportunities, please contact Beverly Page, Information Specialist, Research and Sponsored Programs, phone: (785)532-5045, e-mail: bbpage@ksu.edu

GENERAL

4-1 Natural and Accelerated Bioremediation Research Program (NABIR) (DOE)

The Office of Biological and Environmental Research (OBER) of the Office of Science (SC), U.S. Department of Energy (DOE), announces its interest in receiving applications for research grants in the Natural and Accelerated Bioremediation Research (NABIR) Program. The goal of the NABIR program is to provide the fundamental science that will serve as the basis for development of cost-effective bioremediation and long-term stewardship of radionuclides and metals in the subsurface at DOE sites. The focus of the program is on understanding the role of microorganisms in long-term immobilization of contaminants in place, and the potential for their remobilization. Contaminants of interest are uranium, technetium, plutonium, chromium or mercury. NABIR is focused on subsurface sediments below the zone of root influence and includes both the vadose (unsaturated) zone and the saturated zone (groundwater and sediments). DE-FG01-04ER04-06 (FR 12/19/03)

URL: <http://www.science.doe.gov/production/grants/grants.html>
Deadline: 3/9/2004

4-2 National Science, Technology, Engineering, and Mathematics Education Digital Library (NSDL) (NSF)

Building on work supported under the multi-agency Digital Libraries Initiative, this program aims to establish a national digital library that will constitute an online network of learning environments and resources for science, technology, engineering, and mathematics (STEM) education at all levels. In FY2004, the program will accept proposals in three tracks: 1) Pathways projects are expected to provide stewardship for the content and services needed by major communities of learners. 2) Services projects are expected to develop services which support users, collection providers, and the Core Integration effort and which enhance the impact, efficiency, and value of the library. 3) Targeted Research projects are expected to explore specific topics that have immediate applicability to collections, services,

and other aspects of the development of the digital library. NSF 04-542 (Posted 1/14/04)

URL: <http://www.nsf.gov/pubsys/ods/getpub.cfm?nsf04542>

Deadline: Letters of Intent 3/14/2004; Proposals 4/14/2004

4-3 Training Course on Using Environmental Laws to Achieve Environmental Justice (EPA)

The purpose of the training is to educate community residents who want to know how the environmental laws can be used to promote environmental justice in their communities without the use of lawyers. It focuses on opportunities, legal rules, and tools that community residents have under environmental laws to protect their health, the health of their families and neighbors, and their environment. The course will be designed to help non-lawyer citizens understand how they can use the law and work effectively and constructively with non-governmental organizations, the private sector, and the government to promote environmental and health protection. EPA-GRANTS-011304-001 (FG 1/15/04)

URL: <http://www.epa.gov/compliance/recent/ej.html>

Deadline: 3/1/2004

4-4 Program to Build Environmental /Public Health Capacity Within Tribal Colleges and Universities (HHS)

CDC's Procurement and Grants Office has published a program announcement entitled Program to Build Environmental/Public Health Capacity Within Tribal Colleges and Universities. The purpose of the program is to develop or enhance environmental/public health programs, and to undertake curriculum building activities with TCUs. CDC PA 04027 (FG 01/15/04)

URL: <http://www.cdc.gov/od/pgo/funding/04027.htm>

Deadline: 3/1/2004

4-5 Michael P. Malone International Leadership Awards (NASULCG)

The Commission on International Programs (CIP) of the National Association of State Universities and Land-Grant Colleges (NASULGC) seeks nominations for the Michael P. Malone International Leadership Awards. The awards provide national recognition for a career of outstanding contribution that furthers international education of state and land-grant institutions. The Commission can make up to two awards annually in one or a combination of the following three tracks: Track I: CEO's and Key University Administrators; Track II: Faculty and Staff; Track III: Public Officials and

Individuals Representing Consortia or Non-Government Organizations (non-academic).

URL: http://www.nasulgc.org/comm_intprogs.htm

Deadline: 2/27/2004

AGRICULTURE

4-6 Citrus Tristeza Research (CTV) (USDA)

The purpose of this program is to support cutting edge research that mitigates or eliminates problems caused by the Citrus tristeza virus and/or the Brown Citrus Aphid. Research using the latest technologies in new ways is encouraged. Priority will be given to applications that propose collaboration between citrus production areas, and to proposed projects that are judged most likely to result in positive short-term impacts on citrus production. (FG 1/22/04)

URL: http://www.reeusda.gov/1700/funding/04/rfa_ctv_04.htm

Deadline: 3/4/2004

4-7 Integrated Pest Management (USDA)

The IPM Section 406 Program seeks to solve critical agricultural issues, priorities, or problems through the integration of research, education, and extension activities. The Program is designed to fund the development of new Integrated Pest Management (IPM) approaches or the improvement of existing IPM systems. The program areas included in the IPM Section 406 Program are: 1) Crops at Risk; 2) Risk Avoidance and Mitigation; and 3) Methyl Bromide Transitions. Projects funded within these program areas will cover a broad range of new methodologies, technologies, systems and strategies for implementing integrated crop and pest management programs. (FG 12/29/03)

URL: http://www.reeusda.gov/1700/funding/04/rfa_com_grants_prg_04.htm

Deadline: 3/15/2004

4-8 Decision Support, Education, and Workforce Development Through Geospatial Extension Specialists Program (USDA)

As part of a collaborative, interagency effort, the Cooperative State Research, Education, and Extension Service (CSREES) of the U.S. Department of Agriculture (USDA) is soliciting applications for the Decision Support, Education, and Workforce Development through Geospatial Extension Specialists (GES) Program for fiscal year (FY) 2004 to support programmatic activities (1) in states that establish new Geospatial Extension Specialist positions, and (2) in on-going Geospatial Extension Specialist pro-

grams. (FR 12/1/03)

URL: <http://www.reeusda.gov>

Deadline: 3/1/2004

ARTS & HUMANITIES

4-9 Creation and Presentation Program (CMA)

Chamber Music America extends its outreach to the ensemble music community by providing services, resources, membership benefits and grant opportunities to jazz artists. Of special interest is the New Works: Creation and Presentation Grant Program, a component of the Doris Duke Jazz Ensembles Project. This innovative grant initiative supports composer/performer led ensembles for the creation and presentation of original music in the jazz idiom. Ensembles must consist of a core of musicians who perform original music that includes jazz improvisation, have a demonstrated history of performing together as a jazz ensemble and range in size from two to ten members.

Deadline: 2/26/2004

EDUCATION

4-10 US-Brazil Higher Education Consortia Program (ED)

This program is a Special Focus Competition under the Fund for the Improvement of Postsecondary Education. For FY04 the priority encourages proposals designed to support the formation of educational consortia of American and Brazilian institutions to encourage cooperation in the coordination of curricula, the exchange of students, and the opening of educational opportunities between the United States and Brazil. CFDA No. 84.116M (FR 12/1/03)

URL: <http://www.ed.gov/news/fedregister>

Deadline: 4/16/2004

ENGINEERING, MATHEMATICS & PHYSICAL SCIENCES

4-11 Mathematical Sciences: Innovations at the Interface with the Sciences and Engineering (NSF)

This solicitation describes many of the opportunities available for support through the Foundation's Mathematical Sciences Priority Area (MSPA). Investments in the Mathematical Sciences will deepen support for fundamental research in mathematics and statistics, and the integration of mathematical and statistical research across the full range of science and engineering disciplines. Initial investments in interdisciplinary research will focus primarily on mathematical and statistical challenges posed by large data sets, managing and modeling uncertainty, and modeling complex nonlinear systems. Innovative educational activities that foster closer connections between research and education in the mathematical sciences will also be supported. In FY2004, a set of focused competitions will be sup-

ported. NSF 04-538 (Posted 1/6/2004)

URL: <http://www.nsf.gov/pubsys/ods/getpub.cfm?nsf04538>

Deadline: Varies

4-12 Postdoctoral Program in Environmental Chemistry (Dreyfus)

The program invites experts in environmental science to submit proposals for the training of Ph.D. chemists and chemical engineers in research activities related to chemistry and the environment. Each awardee may then appoint a postdoctoral scientist to spend up to two years in a program intended to stimulate the visiting scientist to carry out further research in support of environmental understanding and values. (GA 11/03)

URL: <http://www.dreyfus.org/ep.shtml>

Deadline: 2/26/2004

HEALTH & LIFE SCIENCES

4-13 AMTA Foundation's Research Grants (AMTA)

The AMTA Foundation advances the knowledge and practice of massage therapy by supporting scientific research, education and community service. Awards are granted to support high quality, independent research which contributes significantly and directly to the basic knowledge of massage therapy and/or its application, including applied research which investigates massage therapy as a health/mental health treatment and/or prevention modality. Beginning with the 2004 research competition, the Foundation will invite research proposals that fall into either of two categories, viz., the Early Career Research Competition Category and the Unrestricted Research Competition Category.

URL: <http://www.amtafoundation.org>

Deadline: 3/1/2004

SOCIAL SCIENCE

4-14 Environmental Policy, Governance, Economic Policy - Latin America, Iberia, Antarctica (Tinker)

These grants are available to institutions and must be geographically focused on Latin America, Iberia or Antarctica. Typically, the projects should deal with environmental policy, governance, or economic policy. Support may be sought for, but is not limited to, research projects, conferences and workshops. The Foundation encourages collaboration between and among organizations in the United States, Latin America, Spain and Portugal. (GA 12/03)

URL: <http://www.fdncenter.org/grantmaker/tinker/institu.html>

Deadline: 3/1/2004, 9/1/2004

4-15 Peace Research (USIP)

The U.S. Institute of Peace is soliciting applications under two broad program categories - weapons of mass destruction and improving relations with Muslim peoples. Topics related to weapons of

mass destruction are: role of WMD in regional crises; tools for preventing their spread, dealing with non-state actors and relevant actors in controlling WMD. Topics related to improving relations with and within the Muslim world are: the roles of education; religious organizations; economic factors and tools; and public diplomacy. USIP also is inviting applications under its "unsolicited" grant program, which considers applications across a broad range of topics, such as international conflict; the role of nonviolence and nonviolent sanctions; and moral and ethical thought about conflict and conflict resolution. (FR 11/24/03)

URL: <http://www.usip.org>

Deadline: 3/1/2004

4-16 Funding for the Analysis of Existing Data (DOJ)

National Institute of Justice (NIJ) requests proposals to conduct original research using data from the National Archive of Criminal Justice Data (NACJD). NACJD houses quantitative and qualitative data from NIJ sponsored research and makes it available online for downloading machine-readable copies (in SPSS, SAS or ASCII) together with data dictionaries and study abstracts. NIJ is particularly interested in secondary analysis to inform criminal justice policy and practice. In this regard, NIJ has identified the following as areas of interest: crime control and prevention, including policing; drugs and crime; justice systems and offender behavior, including corrections; violence and victimization; communications and information technologies; critical incident response; investigative and forensic sciences, including DNA; less-than-lethal technologies; officer protection; education and training technologies; testing and standards; technology assistance to law enforcement and corrections agencies; field testing of promising programs; and international crime control. DOJ-GRANTS-112403-004 (FG 11/24/03)
