Notice

29-1 DOE-EPSCoR Preproposals (DOE)

The Department of Energy's EPSCoR Implementation Award program is soliciting proposals from EPSCoR states. Because a single proposal is allowed from each eligible state, Kansas will select a single preproposal on the basis of fundability at the national level. 2 page preproposals in pdf format are due in the state DOE EPSCoR by 5:00pm Central Time. Proposals should be emailed to KANSAS.DOE.EPSCOR@phys.ksu.edu. Questions should be addressed to Professor Brett D. De Paola at depaola@phys.ksu.edu.

GENERAL

29-2 Research on Research Integrity (NIH)

The National Institutes of Health invites applications to support empirical research on research integrity. Applications must have clear relevance to biomedical, behavioral health sciences, and health services research. The sponsoring programs are particularly interested in research that will provide clear evidence (rates of occurrence and impacts) of potential problem areas as well as societal, organizational, group, and individual factors that affect, both positively and negatively, integrity in research. Relevant research perspectives and disciplines include, but are not limited to: anthropology, applied philosophy, business, economics, education, information studies, law, organizational studies, health services, political science, psychology, public health, sociology, and survey and evaluation research, plus the physical, biomedical, and clinical sciences, including nursing. 29-5 Preserving and Providing Access to Records (NARA)

The National Historical Publications and Records Commission (NHPRC) sponsors a variety of projects and programs to preserve and make available for use those records that further an understanding and appreciation of American history. The Commission encourages archival repositories, state and local governments, historical societies, libraries, academic institutions, and others to act vigorously to locate and preserve documents of national and state historical significance. Commission-supported projects help to ensure that these records are saved and made available for public use. Commission grants help grantees assess records conditions and needs, develop archival and records management programs, and provide support for historical photograph, news film, and sound recordings preservation and for microfilming. EDUCATION

29-7 Vocational Rehabilitation Counseling (ED)

The Rehabilitation Long-Term Training program provides financial assistance for: 1) Projects that provide basic or advanced training leading to an academic degree in areas of personnel shortages in rehabilitation as identified by the Secretary; 2) Projects that provide a specified series of courses or program of study leading to award of a certificate in areas of personnel shortages; and 3) Projects that provide support for medical residents enrolled in residency training programs in the specialty of physical medicine and rehabilitation. The current priority is Partnership With the State VR Agency. This priority supports projects that will increase the knowledge of students of the role and responsibilities of the VR counselor and the benefits of counseling in State VR agencies. This priority focuses attention on and intends to strengthen the unique role of rehabilitating educators and State VR agencies in the preparation of qualified VR counselors by increasing or creating ongoing collaboration between institutions of higher education and State VR agencies. ENGINEERING, MATHEMATICS & PHYSICAL SCIENCES

29-8 CISE Computing Research Infrastructure (CRI) (NSF)

The Computer and Information Science and Engineering (CISE) Computing Research Infrastructure program supports the acquisition, development, enhancement, and operation of research infra-

structure that enables discovery, learning, and innovation in all computing fields supported by CISE. Supported infrastructure includes instrumentation needed by a few research or research and education projects, major experimental facilities for an entire department or for multi-institutional projects, and test beds or data archives for an entire subfield of CISE researchers. The CRI program will make three kinds of awards: Infrastructure Acquisition. These awards have been budgets up to \$2,000,000; Community Resource Development. These awards have budgets from \$300,000 to \$2,000,000; medium from \$300,000 to \$800,000 and large over \$800,000; Planning. These awards facilitate the preparation of a proposal for a medium or large infrastructure acquisition grant. NSF 04-588 (Posted 7/22/05)

29-9 NASA 2005 Small Business Technology Transfer (STTR) Program (NASA)

The NASA STTR program is designed as a vehicle for converting the nation's investment in research carried out by research institutions into new commercial technologies in order to advance U.S. economic competitiveness and high-tech development. Phase 1 proposals submitted in response to this solicitation must be jointly developed by a small business concern and a research institution with not less than 40% of the work being performed by the small business as the prime contractor and not less than 30% of the work being performed by the research institution. The NASA STTR 2005 research areas correspond to the central underlying technological competencies of each participating NASA Center. It is anticipated that the NASA 2005 solicitation will identify specific product areas within each subtopic that NASA wishes to emphasize. STTR2005 (FBO 5/27/05)

HEALTH & LIFE SCIENCES

29-10 Parker B. Francis Fellowships in Pulmonary Research (Francis)

The Parker B. Francis Fellowship in Pulmonary Research is intended to support the development of outstanding investigators who plan careers in lung biology and respiratory medicine. Fellowship support helps them make the transition to independent, self supporting, faculty members. Parker B. Francis Fellowship grants are awarded to institutions to provide stipends, fringe benefits and travel expenses for qualified post-doctoral fellows or newly appointed assistant professors. Award recipients will thereby be enabled to devote the major part of their professional effort to research related to pulmonary disease and lung biology. There are no restrictions regarding discipline or

department. Each department may submit only one application annually and is limited to a maximum of two active fellowships at any one time. The deadline for internal selection of nominees is September 1.
