

Funding Bulletin

Funding Opportunities for Research, Instruction, Service, Creative Activities
Fellowships and International Programs

May 5, 2008

Vol. 17, No. 17

Program Information

To receive program information, please contact Beverly Page, Information Specialist, Research and Sponsored Programs, phone: (785)532-5045, e-mail: bbpage@ksu.edu

NOTICE - The Funding Bulletin is available via email. To be added to the electronic mailing list, send an email message to: listserv@listserv.ksu.edu. Leave the subject line blank. In the message area, type: *sub fundingbulletin*.

Limited Submissions

Limited submission programs have sponsor restrictions on the number of proposals that may be submitted by a single institution and will require institutional screening to determine which applications will be submitted. Dr. Jim Guikema, Associate Vice Provost for Research, is the internal coordinator for limited submission programs. Please notify him at 785-532-6195, email: guikema@ksu.edu, by the Internal due date listed in the Funding Bulletin (**FB 17-2**) or by at least two months prior to the sponsor deadline if you wish to submit to a limited submission program. Currently posted Internal Deadlines: <http://www.k-state.edu/research/funding/bulletins/bul08/limits08/index.htm>

GENERAL

17-1 Grants for Graduate Student Fellowships (KSU)

The K-State Center for Sustainable Energy (CSE) seeks proposals from eligible K-State faculty in support of graduate student assistantships for projects related to enhancing research on renewable energy topics at K-State. These assistantships are intended to expand the current research base at K-State and encourage new research clusters addressing issues related to renewable energy. Preference will be given to interdisciplinary projects with a history of success and potential for attracting extramural funding. There will be a meeting in the K-State Union Big 12 Room on Thursday, May 15, 2008 at 9:00 a.m. to introduce CSE to the K-State research community and to further discuss the RFP.

URL: <http://www.sustainable-energy.ksu.edu/>

Deadline: 5/23/2008

ARTS & HUMANITIES

17-2 Fellowships at Digital Humanities

Centers (FDHC) (NEH)

FDHCs support collaboration between digital centers and individual scholars. An award provides funding for both a stipend for the fellow while in residence at the center and a portion of the center's costs for hosting a fellow. The intellectual cooperation between the visiting scholar and the center may take many different forms and may involve humanities scholars of any level of digital expertise. Each application will include one digital humanities center and one individual scholar. Center eligibility is limited to digital humanities centers affiliated with either American institutions of higher education or U.S. non-profit organizations or institutions with IRS 501(c)(3) tax exempt status. Centers may submit one application per deadline; individual scholars may apply in collaboration with only one digital center per deadline.

Deadline: Internal 7/15/2008; Applications 9/15/2008

17-3 Electronic Records Projects (NARA)

The National Historical Publications and Records Commission promotes the preservation and use of America's documentary heritage essential to understanding our democracy, history, and culture. The focus of the NHPRC's Electronic Records grant program is to support projects that will lead to sustainable electronic records archives that preserve digital records with enduring historical value. Projects cannot use grant funds to digitize historical records. Applicants who wish to digitize records should refer to the Digitizing Historical records announcement. Applications should be for projects that: Develop institutional capacity through program evaluation and planning; Create institutional capacity with program start-up support; Expand the scope of existing programs; or Develop electronic records service providers that can offer reliable preservation services to archives.

URL: <http://www07.grants.gov/search/search.do?mode=VIEW&oppId=40178>

Deadline: 6/2/2008

17-4 Digitizing Historical Records (NARA)

The National Historical Publications and Records Commission promotes the preservation and use of America's documentary heritage essential to understanding our democracy, history and culture. The Commission seeks proposals that use cost-effective methods to digitize nationally-significant historical record collections and make the digital versions freely

available on the Internet. Projects must make use of existing holdings of historical repositories and be made up of entire collections or series. The materials should already be available to the public at the archives and described so that projects can re-use existing information to create metadata for the digitized collection.

Deadline: 6/2/2008

EDUCATION

17-5 Training Program for Federal TRIO Programs (ED)

The Training Program provides grants to train staff and leadership personnel employed in, participating in, or preparing for employment in, projects funded under the Federal TRIO Programs to improve the operation of these projects. CFDA# 84.103A (FR 4/22/08)

URL: <http://www.ed.gov/legislation/FedRegister/announcements/2008-2/042208g.html>

Deadline: 5/23/2008

17-6 Demonstration Projects to Ensure Students with Disabilities Receive Quality Higher Education Program (ED)

The purpose of the Demonstration Program is to award grants to institutions of higher education (IHEs) to develop innovative demonstration projects that provide technical assistance or professional development that faculty and administrators at IHEs need to effectively teach students with disabilities. IHEs funded under this program also will disseminate information widely about promising practices and activities that yield positive results in their projects and will provide training to enable faculty and administrators in other IHEs to meet the educational needs of students with disabilities. CFDA# 84.333A (FR 4/22/08)

URL: <http://www.ed.gov/legislation/FedRegister/announcements/2008-2/042208b.html>

Deadline: 5/22/2008

17-7 Emergency Management for Higher Education Grants (ED)

Emergency Management for Higher Education (EMHE) Grants support efforts by higher education institutions to develop, or review and improve, and fully integrate, campus-based all hazards emergency management planning efforts within the framework of the four phases of emergency management [Prevention-Mitigation, Preparedness, Response, and Recovery]. 84.184T (FR 4/24/08).

URL: <http://www.ed.gov/news/fedregister>

Deadline: 5/27/2008

ENGINEERING, MATHEMATICS & PHYSICAL SCIENCES

17-8 Atmospheric Radiation Measurement (ARM) Program Announcement (DOE)

The Office of Biological and Environmental Research (BER) of the Office of Science (SC), U.S. Department of Energy (DOE), announces its interest in receiving applications to develop innovative methods for observational data analysis and utilize the resulting knowledge from such analyses to improve cloud parameterizations. The intent is to improve the modeling of cloud properties and processes and their impact on the atmospheric radiation balance. DE-PS02-08ER08-23 (GG 4/22/08)

URL: <http://www.grants.gov>

Deadline: Preapplications 5/21/2008; Applications 7/21/2008

17-9 Fellowships for Early Career Researchers (NASA)

The Early Career Fellowship program was established to facilitate the integration of new planetary science researchers into the established research funding programs and to provide tools and experience useful when searching for a more advanced (i.e., tenure-track, civil servant, or equivalent) position. Proposers who wish to become Early Career Fellows must have received their Ph.D. no earlier than 2001 and must be currently employed as a postdoctoral researcher, research assistant, or an equivalent non-tenured position. NNH08ZDA001N-FECR-1 (GG 3/4/08)

URL: <http://nspires.nasaprs.com>

Deadline: 5/30/2008

17-10 Structures and Materials Research and Development (BAA) (DOD)

The Naval Air Systems Command (NAVAIR) and the Structures and Materials Engineering Divisions under the Air Vehicle Department (AIR-4.3) are soliciting proposals for research and development (R&D) concepts in the area of structures and materials to support current and future Naval Aviation needs. Concepts proposed may represent novel dedicated technologies and/or dual use of new emerging commercial technology. Specific areas of interest are: New Structures and Materials, Structural and Material Concepts, Structural Analysis, Modeling and Stimulation, and Materials Processing applied to metals, ceramics, polymers, and composites. N00421-08-R-0049 (FBO 3/4/08)

URL: <http://www.fbo.gov>

Deadline: 5/31/2008, 8/31/2008, 11/30/2008

HEALTH & LIFE SCIENCES

17-11 Mouse Models Containing Human Alleles: Novel Tools to Study Brain Function (R21/R23) (NIH)

This Funding Opportunity Announcement

(FOA), issued by the National Institute of Mental Health (NIMH), the National Institute on Aging (NIA), the National Institute on Alcohol Abuse and Alcoholism (NIAAA), and the National Institute on Drug Abuse (NIDA), invites Phased Innovation (R21/R33) grant applications from organizations/institutions that propose the development and characterization of novel mouse models that express human genes or human genetic elements that can aid in understanding the molecular mechanisms underlying brain function and the physiological function/significance of gene variants and gene dosage abnormalities that have been identified as possibly being involved in mental disorders, addiction, neurodegenerative disorders of aging, and alcoholism as well as related comorbid conditions. PAR-08-158 (NIHG 4/25/08)

URL: <http://grants.nih.gov/grants/guide/pa-files/PAR-08-158.html>

Deadline: Letters of Intent 5/26/2008, 12/28/2008; Applications 6/26/2008, 1/28/2009

17-12 Angelman Syndrome Research (Angelman)

The Angelman Syndrome Foundation announces the availability of funding to be awarded in support of research on Angelman Syndrome. Angelman Syndrome is a neurodevelopmental disorder caused by deficiency of the ubiquitin protein ligase UBE3A in the brain. Applications related to any areas of research involving Angelman Syndrome will be considered. Highest priority will be given to pilot projects to test new ideas about pathogenesis and therapy of Angelman syndrome.

URL: <http://www.angelman.org>

Deadline: 6/1/2008

17-13 Outcomes, Cost-Effectiveness and the Decision Making Process to Use Complementary and Alternative Medicine (R01) (NIH)

The primary purpose of this Funding Opportunity Announcement (FOA), issued by the National Center for Complementary and Alternative Medicine (NCCAM) and the National Cancer Institute (NCI), National Institutes of Health (NIH), is to encourage the submission of high quality observational studies evaluating the effectiveness and cost-effectiveness of complementary and alternative medicine (CAM) approaches as used in the community, and the decision processes employed by patients and providers in deciding to use CAM. Projects in which the investigators assign participants to specific therapies (CAM or conventional) or groups of therapies (CAM or conventional) are not allowed under this FOA. PAR-08-045 (NIHG 12/14/07)

URL: <http://grants.nih.gov/grants/guide/pa-files/PAR-08-045.html>

Deadline: 5/19/2008, 5/19/2009

17-14 Modeling of Infectious Disease Agent Study Research Projects (U01)

(NIH)

This Funding Opportunity Announcement (FOA) issued by the National Institute for General Medical Sciences, National Institutes of Health, solicits Cooperative Agreement (U01) applications from institutions/organizations that propose to provide the U.S. scientific and public health communities better resources, knowledge, and tools to improve their ability to identify and prevent the spread of diseases resulting from the emergence or intentional release of pathogens and their products. Research projects will become part of the Models of Infectious Disease Agent Study (MIDAS) Network. This FOA is a preannouncement of a prior FOA (RFA-GM-05-011). The MIDAS Network will consist of a centralized information technology resource (announced separately), a Centers of Excellence component (announced separately) and, with this announcement, the continuation of a network of multidisciplinary scientists conducting computational and mathematical research to improve the ability to detect, control and prevent emerging infectious diseases caused by naturally occurring or intentionally released pathogens, including those relevant to biodefense. RFA-GM-09-001 (NIHG 4/18/08)
