

Program Information

To receive program information, please contact Beverly Page, Information Specialist, Research and Sponsored Programs, phone: (785)532-5045, e-mail: bbpage@ksu.edu

NOTICE - The Funding Bulletin is available via email. To be added to the electronic mailing list, send an email message to: listserv@listserv.ksu.edu Leave the subject line blank. In the message area, type: *sub fundingbulletin*.

Limited Submissions

Limited submission programs have sponsor restrictions on the number of proposals that may be submitted by a single institution and will require institutional screening to determine which applications will be submitted. Dr. Jim Guikema, Associate Vice Provost for Research, is the internal coordinator for limited submission programs. Please notify him at 785-532-6195, email: guikema@ksu.edu, by the Internal due date listed in the Funding Bulletin or by at least two months prior to the sponsor deadline if you wish to submit to a limited submission program. Currently posted Internal Deadlines: <http://www.k-state.edu/research/funding/bulletins/bul08/limits08/index.htm>

GENERAL

19-1 The Effect of Racial and Ethnic Discrimination/Bias on Health Care Delivery (R01)(NIH)

This Funding Opportunity Announcement (FOA) issued by National Cancer Institute, National Institutes of Health, encourages the submission of research project grant applications from institutions/organizations that propose to: 1) improve the measurement of racial/ethnic discrimination in health care delivery systems through improved instrumentation, data collection, and statistical/analytical techniques; 2) enhance understanding of the influence of racial/ethnic discrimination in health care delivery and its association with disparities in disease incidence, treatment, and outcomes among disadvantaged racial/ethnic minority groups; and 3) reduce the prevalence of racial/ethnic health disparities through the development of interventions to reduce the influence of racial/ethnic discrimination on health care delivery systems in the United States. This FOA will utilize the NIH Research Project Grant (R01) award mechanism and runs in parallel with FOAs of identical scope, PA-08-084 and PA-08-085, which encourage applications under the R21 and R03 mech-

anisms respectively. PA-08-083 (NIHG 2/1/08)

URL: <http://grants.nih.gov/grants/guide/pa-files/PA-08-083.html>

Deadline: 6/5/2008, 10/5/2008, 2/5/2009

AGRICULTURE

19-2 Critical Issues: Emerging and New Plant and Animal Pests and Diseases (USDA)

CSREES announces the availability of grant funds and requests applications for the Critical Issues program to perform critical research activities related to time-critical, emerging plant and animal pest and disease issues. For this particular solicitation, CSREES is requesting applications that address specific aspects of the following issues: Johne's Disease Vaccination Modeling and Porcine High Fever Disease (PHFD). Priority will be given to proposed projects that are staffed by collaborative teams who document their experience in making optimal use of existing local, regional, and national capabilities and capacities; and Demonstrate their experience in conducting time-critical research.

URL: http://www.csrees.usda.gov/funding/rfas/critical_issues.html

Deadline: 6/18/2008

19-3 Evaluating the Effects of Conservation Practices on Watershed Health within the Biophysical Setting of a Grazing Land Watershed (USDA)

CSREES requests applications for the Integrated Research, Education, and Extension Competitive Grants Program - Conservation Effects Assessment Project (CEAP) for fiscal year (FY) 2008 to develop research and extension projects aimed at improving the watershed health of grazing land watersheds across the nation. CEAP seeks to fund projects that evaluate the effects of grazing land conservation practices, especially with respect to understanding how the suite of conservation practices, the timing of these activities, and the spatial distribution of these practices throughout a watershed influence their effectiveness for achieving locally defined watershed health goals

URL: <http://www.csrees.usda.gov>

Deadline: 6/17/2008

19-4 Supplemental and Alternative Crops Competitive Grants Program (USDA)

SACC supports the development of superior germplasm, establishment and extension of various methods of planting, cultivation, harvesting, processing, and transfer of such applied research from experimental sites to on farm practice as

soon as practicable. FY 2008 funding will support Canola research. USDA-CSREES-OP-0015951 (GG 5/7/08)
URL: <http://www.csrees.usda.gov/>
Deadline: 6/9/2008

ARTS & HUMANITIES

19-5 Latino Culture Project (MAAA)

Mid-America Arts Alliance values the opportunity to bring artists and audiences together. The Latino Culture Project seeks to help presenters find connection points to Latino populations in their communities and educate their existing audiences about Latino culture. They strongly encourage presenters to work with their Latino and Latino-American communities in order to make the programs even more meaningful for their local and regional audiences. The Mid-America Regional Touring Program artist registry is a great resource to locate eligible artists. From classically trained pianists to pets, the registry contains diverse and affordable programmatic options. Projects need to occur between July 1, 2008 and June 30, 2009. Include at least one performance open and promoted to the general public. Feature professional performing artist/ensemble that are Latino, or of Latino descent. The professional artist/ensemble needs to reside outside the applicant's state and metropolitan area. Applications may be submitted beginning March 1, 2008 (Early submissions increase the possibility of funding).

Deadline: Open

EDUCATION

19-6 Greek Teacher Professional Development Project (STATE)

The Office of Global Educational Programs of the Bureau of Educational and Cultural Affairs of the U.S. Department of State announces an open competition for the Greek Teacher Professional Development Project. U.S. public and private universities with schools of education may submit proposals to administer an eight-week professional development program to start in August 2009, for approximately twenty teachers in the humanities from Greece at an early point in their careers as educators. The program will focus on teaching methodology as well as the use of technology in the classroom and should include both an academic component of seminars at a U.S. university's school of education and a practical component of practice teaching with guidance from experienced mentor teachers in local schools. Interested universities should demonstrate strong contacts with local U.S. school districts to

facilitate the practical internship component, as well as the faculty resources to conduct a substantive academic program. Host schools for internships may be public, private, magnet or charter schools, and should exemplify educational best practices. ECA-A-S-X-08-06 (GG 5/6/08)

URL: <http://www07.grants.gov>

Deadline: 6/6/2008

19-7 Technology Development (DOD)

The purpose of this research announcement is to receive proposals for the development of a demonstration program utilizing emerging technologies to: a) support K-12 educational initiatives for professional development curriculum to prepare teachers to lead their students in inquiry based learning and the use of advanced technology; b) develop student curricula utilizing project based learning and advanced technology which supports requirements for science and technology education developed by the Department of Education and c) use emerging technologies to assist students in developing new skills for application in the digital economy in support of the Office of Naval Research's mission of scientific outreach and education in working to develop the next generation of scientists capable to support the continued development of critical technologies in support of the Department of Defense. ONR RA 08-014 (FBO 5/7/08)

URL: <http://www.fbo.gov>

Deadline: 6/13/2008

19-8 Education Research (Spencer)

The Spencer Foundation was established in 1962 by Lyle M. Spencer. The Foundation received its major endowment upon Spencer's death in 1968 and began formal grant making in 1971. The Foundation is intended, by Spencer's direction, to investigate ways in which education broadly conceived, can be improved around the world. Beginning in February 2006, the Research Grants program began accepting applications that fit within one or more of four areas of inquiry: The Relation between Education and Social Opportunity, Organizational Learning in Schools, School Systems, and Higher Education Institutions, Teaching, Learning and Instructional Resources and Purposes and Values of Education.

Deadline: Open

HEALTH & LIFE SCIENCES

19-9 Mitochondria in Cancer Epidemiology, Detection, Diagnosis, and Prognosis (R01) (NIH)

This funding opportunity announcement (FOA) encourages Research Project Grant (R01) applications that propose to develop and validate new mitochondrial-related biomarkers for cancer early detection, diagnosis, prognosis, risk assessment, and response to preventive and ameliorative treatments. This FOA will

utilize the NIH research project (R01) grant mechanism and runs in parallel with an FOA of identical scope, PA-08-144, that solicits applications for exploratory, pilot projects under the NIH R21 grant mechanism. PA-08-143 (NIHG 4/11/08)

URL: <http://grants.nih.gov/grants/guide/pa-files/PA-08-143.html>

Deadline: 6/5/2008, 10/5/2008, 2/5/2009

19-10 Cooperative Centers for Translational Research on Human Immunology and Biodefense (U19) (NIH)

The National Institute of Allergy and Infectious Diseases (NIAID) invites new or competing renewal applications from institutions with multi-disciplinary investigator teams to participate in the Cooperative Centers for Translational Research on Human Immunology and Biodefense (CCHI) program. The goal of this Funding Opportunity Announcement (FOA) is to support research on human immunology as it applies to potential agents of bioterrorism or emerging/re-emerging infectious diseases. The immediate objectives are to support basic and translational research on human immunological responses to NIAID Category A, B, or C Priority Pathogens, their toxins, or other emerging/re-emerging diseases and to create the stable, flexible, and centralized infrastructure needed to promote and coordinate multi-disciplinary research in human immunology as it relates to defense against these agents. RFA-AI-08-014 (NIHG 2/29/08)

URL: <http://grants.nih.gov/grants/guide/rfa-files/RFA-AI-08-014.html>

Deadline: Letters of Intent 6/18/2008; Applications 7/16/2008

19-11 Community Participation in Research (R01) (NIH)

This Funding Opportunity Announcement (FOA) issued by the Office of Behavioral and Social Sciences Research (OBSSR), National Institutes of Health (NIH) solicits R01 grant applications that propose intervention research on health promotion, disease prevention, and health disparities that communities and researchers jointly conduct. For the purposes of this FOA, intervention research is quasi-experimental research projects that seek to influence preventive behaviors, treatment adherences, complementary behaviors, and related attitudes and beliefs. Natural experiments also may fall under the interventions rubric. Examples include, and are not limited to, promotion of physical activity-friendly neighborhoods; tobacco, alcohol and drug abuse prevention among youth; a community-led action plan for cancer, hypertension and cardiovascular disease prevention and control in minority populations; establishing safer work practices among agricultural workers in rural areas; nutrition and reducing childhood obesity; HIV/AIDS and STD prevalence among young adults; promoting infant mental health; and reducing health disparities. PA-08-074 (NIHG 1/18/08)

URL: <http://grants.nih.gov/grants/guide/>

pa-files/PA-08-074.html

Deadline: 6/5/2008, 10/5/2008, 2/5/2009

19-12 Sustainable Process Routes to Aromatic Molecules (NineSigma)

NineSigma, on behalf of a leading international chemical company, invites proposals to produce select aromatic molecules by viable sustainable routes such as microorganism biosynthesis or bio-source derived extractables.

Deadline: 6/6/2008

STUDENTS

19-13 The Early Doctoral Student Research Grant Program and Doctoral Dissertation Research Grant Program (HUD)

Early Doctoral Student Research Grant (ESDRG) Program is to enable pre-candidacy doctoral students enrolled at institutions of higher education accredited by a national or regional accrediting agency recognized by the U.S. Department of Education to cultivate their research skills through the preparation of research manuscripts that focus on policy-relevant housing and urban development issues. Doctoral Dissertation Research Grant (DDRG) Program is to enable doctoral candidates enrolled at institutions of higher education to complete their research and dissertations on policy-relevant housing and urban development issues. FR-5200-N-22 (GG 5/6/08)
