

Funding Bulletin

Funding Opportunities for Research, Instruction, Service, Creative Activities
Fellowships and International Programs

May 23, 2008

Vol. 17, No. 20

Program Information

To receive program information, please contact Beverly Page, Information Specialist, Research and Sponsored Programs, phone: (785)532-5045, e-mail: bbpage@ksu.edu

NOTICE - The Funding Bulletin is available via email. To be added to the electronic mailing list, send an email message to: listserv@listserv.ksu.edu Leave the subject line blank. In the message area, type: *sub fundingbulletin*.

Limited Submissions

Limited submission programs have sponsor restrictions on the number of proposals that may be submitted by a single institution and will require institutional screening to determine which applications will be submitted. Dr. Jim Guikema, Associate Vice Provost for Research, is the internal coordinator for limited submission programs. Please notify him at 785-532-6195, email: guikema@ksu.edu, by the Internal due date listed in the Funding Bulletin or by at least two months prior to the sponsor deadline if you wish to submit to a limited submission program. Currently posted Internal Deadlines: <http://www.k-state.edu/research/funding/bulletins/bul08/limits08/index.htm>

AGRICULTURE

20-1 Improving Soybean Meal and Soy Product Utilization in Animal Diets (USB)

On behalf of the United Soybean Board Domestic Marketing Committee, you are invited to submit a CONCEPT/ Pre-Proposal for Improving Soybean Meal and Soy Product Utilization in Animal Diets program under the Animal Utilization target area. If deemed of interest, the DMC will request a full proposal for consideration for the 2009 fiscal Year. A number of projects addressing the utilization of soybean meal for domestic animal feed are now being funded by USB, but the Board is open to new proposals. This request for a concept paper is designed to identify new ideas and novel approaches to expand the market for soybean meal. SB9365

URL: <http://www.unitedsoybean.org>

Deadline: 6/8/2008

20-2 Domestic Aquaculture Marketing (USB)

On behalf of the United Soybean Board, you are invited to submit a CONCEPT for a Domestic Aquaculture Marketing program under the Animal Utilization target area. If deemed of interest, the DMC will

request a full proposal for consideration for the 2009 fiscal Year. Concepts should include a brief description, end objective, timeline estimate, and budget estimate. Concepts should focus on the benefit to soybean producers. Concepts should address ideas to enhance or expand domestic markets for U.S.- produced aquaculture. SB9391

URL: <http://www.unitedsoybean.org>

Deadline: 6/8/2008

ARTS & HUMANITIES

20-3 Architecture Research Grants (Vinoly)

The Rafael Vinoly Architects Training & Research Programs offer up to five research grants to individuals for original research on transformations in the built environment within dynamically changing societies. Research topics should be tightly focused, emphasizing original research. Projects may focus on architecture or any aspect of the built or designed environment. Awards are made to individuals or teams of individuals and not to institutions. Although the firm has a particular interest in studies addressing China, the Middle East, Russia, and South America, citizens of all countries are eligible to apply, and all regions of the world are eligible as subjects of research. (FAM 5/16/08)

URL: <http://www.rvatr.com>

Deadline: 8/1/2008

20-4 Indian Studies Fellowship Competition (AIIS)

The American Institute of Indian Studies is a cooperative, non-profit organization of fifty-four American colleges and universities that supports the advancement of knowledge and understanding of India, its people, and culture. Applications to conduct research in India may be made in the following categories: Junior Research Fellowships available to doctoral candidates at U.S. universities in all fields of study; Senior Research Fellowships available to scholars who hold the Ph.D or its equivalent; Senior Scholarly/Professional Development Fellowships available to established scholars who have not previously specialized in Indian studies to established professionals who have not previously worked or studied in India; and Senior Performing and Creative Arts Fellowships available to accomplished practitioners of the performing arts of India and creative artists who demonstrate that study in India would enhance their skills, develop their capabilities to teach or perform in the U.S., enhance American involvement with India's artistic traditions, and strengthen their links with peers in India.

Deadline: 7/1/2008

20-5 Antarctic Artists and Writers Program (NSF)

The purpose of the Antarctic Artists and Writers Program is to enable serious writings and works of art that exemplify the Antarctic heritage of humankind. In particular, the program seeks to increase public understanding of the Antarctic region, including the continent and the surrounding oceans, as well as the associated research and education endeavors. The Antarctic Artists and Writers Program provides opportunities for professional artists and writers to travel to Antarctica—at research stations, field camps, and aboard ships—to make the observations necessary to complete their proposed projects. NSF 08-552

URL: <http://www.nsf.gov/pubs/2008/nsf08552/nsf08552.htm>

Deadline: 6/18/2008

EDUCATION

20-6 Underground Railroad Education and Cultural Program (ED)

The Underground Railroad Educational and Cultural Program (URR) makes grants to nonprofit educational organizations that are established to research, display, interpret, and collect artifacts relating to the history of the Underground Railroad. Each nonprofit educational organization awarded a grant under this competition must create an endowment to fund any and all shortfalls in the costs of the on-going operations of the facility. Grantees must establish a network of satellite centers throughout the United States to help disseminate information regarding the Underground Railroad. These satellite centers must raise 80 percent of the funds required to establish the satellite centers from non-federal public and private sources. ED-GRANTS-051308-003 (GG 5/13/08)

URL: <http://www07.grants.gov>

Deadline: 6/12/2008

20-7 Education Research and Special Education Research Grant Programs (ED)

The Director of the Institute of Education Sciences (Institute) announces the Institute's FY 2009 competitions for grants to support education research and special education research. The intent of these grants is to provide national leadership in expanding fundamental knowledge and understanding of education from early childhood education through postsecondary and adult education. The National Center for Education Research (NCER) will hold six competitions: Two competitions for education research; one competi-

tion for education research training; one competition for education research and development centers; one competition for research on statistical and research methodology in education; and one competition for evaluation of State and district education programs and policies. The National Center for Special Education Research (NCSEER) will hold three competitions: Two competitions for special education research and one competition for special education research training. (FR 3/3/08)

URL: <http://www.ed.gov/news/fedregister>
Deadline: 6/26/2008, 10/2/2008

ENGINEERING, MATHEMATICS & PHYSICAL SCIENCES

20-8 Indoor Air Quality Products in Region 7 (EPA)

EPA Region 7 is soliciting proposals from organizations to fund indoor air quality (IAQ) projects that address the following two program priority areas: Assistance on the adoption of EPA's IAQ Tools for Schools Program, and indoor asthma triggers and exposure education. Projects must occur within the states of EPA Region 7- Iowa, Kansas, Missouri, and/or Nebraska. EPA-R7AWMD-08-002 (GG 5/13/08)

URL: <http://www07.grants.gov>
Deadline: 6/23/2008

20-9 Fuel Flexibility (DOE)

Alternative fuel use presents a sizeable opportunity for reducing natural gas use, particularly with the escalation in natural gas and petroleum prices since 2004. ITP is initiating work to accelerate the market adoption by industry of emerging technology options based on alternatives to natural gas, such as the utilization of gasified fuels, landfill and digester gas, and other opportunity fuels. Most opportunity fuels can be divided into two categories: biomass fuels and industrial process waste or byproducts. DE-PS26-08NT0004312-01 (GG 5/15/08)

URL: <http://www.grants.gov>
Deadline: 7/14/2008

20-10 Feedstock Flexibility in the Chemical Industry (DOE)

Applications in this Area of Interest are being sought to perform Research and Development (R D) for the utilization of non traditional feedstocks for chemical and related industries. Research emphasis shall be placed on waste or other under-utilized abundant and low cost streams. This may include, but is not limited to under utilized refinery streams, coke, coal, and biomass sources. Successful applications in this Area of Interest shall focus on feedstock substitutions to make existing products with minimal changes in existing manufacturing facilities. DE-PS26-08NT0004312-02 (GG 5/14/08)

URL: <http://www.grants.gov>
Deadline: 7/14/2008

20-11 Advanced Heat Transfer Fluids and Novel Thermal Storage Concepts for Concentrating Solar Power Generation (DOE)

This Funding Opportunity Announcement will identify and support long term research activities and near term demonstration in two areas: 1) improved heat transfer fluids, advanced HTF, and 2) novel thermal energy storage concepts, novel TES systems, that may increase the efficiency and reduce the cost of this promising, renewable technology. Work that includes a consortium of solar technology providers is encouraged. DE-PS36-08GO98032 (GG 4/30/08)
URL: <http://e-center.doe.gov>
Deadline: 7/10/2008

20-12 Chemistry Research Instrumentation and Facilities: Departmental Multi-User Instrumentation (CRIF:MU) (NSF)

The Chemistry Research Instrumentation and Facilities Program (CRIF) is structured to enable the National Science Foundation's Division of Chemistry to respond to a variety of needs for infrastructure that promotes research and education in areas traditionally supported by the Division. The Department Multi-User Instrumentation component of CRIF (DRIF:MU) provides funds for the purchase of multi-user instruments. The maximum request is \$500,000 for instrumentation. Additional funds may be requested for personnel who are needed to support cyber-enhanced projects. The principal investigator must be the chemistry department chairperson or equivalent. The limit on number of proposals is two. If two are submitted, at least one must involve cyberinfrastructure. (NSF-08-539)

URL: <http://www.nsf.gov/pubs/2008/nsf08539/nsf08539.htm>
Deadline: 6/23/2008

HEALTH & LIFE SCIENCES

20-13 Research on the Economics of Diet, Activity, and Energy Balance (R01) (NIH)

This Funding Opportunity Announcement (FOA) is intended to make funding opportunities in the area of energy balance (i.e., the relationship between diet, physical activity, and body composition) known to researchers with expertise and experience in health economics, health services, and econometric modeling (including multi-level analyses) who otherwise might not be aware of the opportunity to apply their disciplines and efforts collectively to this area of research. Obesity has become a major focus of public health efforts at the national, State, and local levels. The major focus of this FOA is to solicit projects that enhance the state-of-the-science on the causes of obesity and to inform Federal decision making on effective public health interventions for reducing the rate of obesity in the United States. This FOA will utilize the NIH Research Project Grant (R01) award

mechanism and runs in parallel with an FOA of identical scientific scope, PA-08-077, that solicits applications under the R21 mechanism. PA-08-078 (NIHG 1/24/08)

URL: <http://grants.nih.gov/grants/guide/pa-files/PA-08-078.html>

Deadline: 6/5/2008, 10/5/2008, 2/5/2009

SOCIAL SCIENCES

20-14 Alcohol Research Education Project Grants (R25) (NIH)

This funding opportunity announcement (FOA) encourages Research Education (R25) grant applications from applicant organizations that propose to develop alcohol education activities in the area of health professions education. The National Institute of Alcohol Abuse and Alcoholism (NIAAA) supports research programs to advance understanding of the biological and behavioral processes involved in the development, expression, and consequences of alcoholism and other alcohol related problems. The institute also supports prevention, treatment, and health services research on alcohol abuse and alcoholism. A part of the NIAAA mission is the dissemination of new knowledge acquired from alcohol research to diverse audiences, including scientists, educators, clinicians, and other health and social service providers, patients and their families, professionals within the criminal justice system and general public. PAR-08-082 (NIHG 2/1/08)
