

Purpose:

To contribute to the mission of our land grant institution and to diversify the intellectual environment of Kansas and beyond by providing opportunities in higher education for Latino/a immigrant students at Kansas State University. It is our intention to further the ability of Latinos in Kansas to become positive contributors and leaders in our communities and in our state.

Biographical Information:

This scholarship was founded on the principles that all individuals who wish to work hard and become educated, contributing members of our society should have the opportunity to better themselves, that individual growth leads to positive community growth which leads to a healthy state economy. In the state of Kansas, too many immigrant families have been unable to reach for these goals. The Kansas State brothers of the Phi Chapter of Sigma Lambda Beta International Fraternity Inc., a historically Latino-based fraternity, believe in the principles of fairness, opportunity and the equality of all individuals. For these reasons, the *Betas* have chosen to address the plight of Latino/a immigrants' educational opportunities through the establishment of this \$500 scholarship and invite the contributions of all in the community.
