WHEREAS under the current financial stress, Student Senate and its Finance Committee favor increased input and communications and a more responsible method of regulating the expenditure of student money, and

WHEREAS a mere stiffening of SGA spending regulations and budget guidelines would free up more capital, but would also ignore the different needs, wants, and specific characteristic circumstances of students in the different colleges.

BE IT ENACTED THAT:

SECTION 1. Student Senate reaffirm and amend Senate Bills 72/73/11, 72/73/19, and 73/74/11, Funding of College Councils, as follows:

1. Student Senate grant $1.50/semester/full-time student and $.42/semester/part-time student to each College Council. The yearly allocation shall be based on the previous year’s second semester’s enrollment.

2. Guidelines for this grant shall include:

   A. Meet SGA spending regulations

   B. Any funded activity cannot discriminate membership on basis of race, nationality, religion, creed, or sex.

   C. Activity must be predominantly beneficial to that college’s students in contrast to benefiting the whole University.

3. Misuse of funds shall be reported by the Financial Advisor or any student in that college and forwarded to the Finance Committee for appropriate action.

4. All individuals or groups requesting an allocation of student activity fee money from a College Council will submit a fully itemized budget to the SGA Finance Committee on or before February 15. The budgets must be fully detailed and shall designate which Council the request is being made from. Once all the budgets are collected, they will be forwarded to the respective College Councils.
5. The Councils will process the budgets in accordance with their individual allocation procedure. After this process is complete, the Councils will present their finalized budgets to Finance Committee. The finalized budgets will include an itemized breakdown of each group funded.

6. Finance Committee approval shall be required for the enactment of any College Council allocation of student activity fee money. Finance Committee will review the budgets to determine whether the expenditures are in accordance with SGA and University policy, and whether they are in the best interest of the students of the respective college. Upon approval of Finance Committee, the allocation will be considered complete. If all or part of a budget was not approved, Finance Committee will schedule a meeting with the Council in question and give a full explanation of their rationale for non-approval. At this time, budgets may be revised and resubmitted.

7. All funds not allocated by any College Council shall be placed in a fund earmarked for that College Council. Any unspent funds remaining at the end of the fiscal year shall be returned to the Unallotted Account. Supplemental allocation requests which may occur at any time throughout the fiscal year, as well as any budget switches of more than $50, must also be approved by Finance Committee. Guidelines will be in accordance with that described in Sections 5 and 6.

8. The liaisons assigned to each of the College Councils will be informed and tutored by Finance Committee in financial matters and situations directly and indirectly affecting College Councils. The purpose will be to increase communication, knowledge and responsibility in the spending of student activity fee money.

9. Each year before tentative allocations begins a statement of policy regarding the expenditure of student money shall be formulated by an ad hoc committee selected by the Chairperson of Student Senate. This policy must then be approved by Student Senate. It shall be distributed to each of the College Councils by the Finance Committee to prevent misunderstandings and promote greater cooperative efforts between College Councils and Student Senate.

10. Any decision made by Finance Committee may be appealed by a simple majority of the assembled body of Student Senate.

Comments: Must be compatible to the handicapped. Will include fencing. Location of jogging area (elevated or ground) is up to the architect. Looking down the road, see no great decline in handball & racquetball. Not too much equipment in Ahearn will be transferred. Most is on a share basis with PE, etc. The ice rink would cost $500,000 on up. Guy Pruett has taken this on as a design project (the site of Memorial Stadium). Hope to continue using men’s gym for basketball. Baseball machines were not considered too much. Would like to consider tennis machines. Faculty use fee will be identical to what the students will be paying. Use fee of the family plan would be 2½ time the faculty/student use fee. The number of semester you pay for the Rec. Complex while in school, you will have that number of semesters free use after graduation. Pools belong to the students. Have to go through the State Architects Office. They interview 3 and select one. Present offices now in east and west stadium will not be disturbed. Looking at the L.P. Washburn area for Rugby & Soccer Fields. No additional parking areas are planned. Have considered keeping the complex open 24 hours with minimal supervision. Classes will be held in the complex only with exceptions of exchange use (concerts being held in Ahearn). $5.50 operational costs after building is open. Written program has to be into Vice Pres. Young by next Tues.

COMMITTEE REPORTS
TEACHER-COURSE EVALUATION - Jeff Crawford and Jan Saunders - TCE will not be out this semester. Ran into some trouble at the Computer Center. Jan stated that she felt that we had been put off by Educational Resources. We will pay the editor $20 and Educational Resources $50 for the time and effort. There will be one out next semester.
ACADEMIC AFFAIRS - Jim Hamilton - The committee is concentrating its efforts on advising. Jeanne Arnoldy talked to Ken Haywood of the Endowment Assoc. about setting up an Endowment Acct. for an advising award. It seems feasible but requires university sponsorship. Sharon Emig met with Dr. Hoyt to discuss means of advisor evaluation He thought there were equitable means of evaluating
advisors, and once criteria were set and the type of award was decided he would be glad to assist us in establishing advisor evaluation using these criteria. He also suggested that we might award the department with the most progressive advising system, as well as the instructor who would be chosen as the best advisor. Jeanne Arnoldy & Jim Hamilton met with Dr. Chalmers to discuss university sponsorship of an advising award. He was receptive to the idea, but felt that insufficient criteria has been established. He also questions whether the award would have the desired, effect of improving advising. Again, peer advising was suggested. It looks like we’ll be back to the drawing board. We face a strange dilemma- the administration demands criteria before it will give its approval, and the people most capable of establishing criteria require university approval before they can act effectively.

Marty Minturn reported on the infamous University Policies Task Force (this is a third cousin to the Title IX Task Force). A letter has been typed up to be sponsored by the committee to be sent to dept. heads, deans, etc. to request that the college publicize, specify, and tell their academic advisors about any changes from strict university policy in areas of enrollment, drop-add, credit-no credit, or other academic policies. (How’s that for a Pat McFadden-type long philosopher’s sentence?) The committee concerning academic complaints and foreign T.A. language problem is still meeting with Dr. Nolting. Members are: Randy Groves, Christian Loschcke and Jim Hamilton. And now for the moment you have all been waiting for. The daring, bold, and unselfish defenders of student rights in academics now close their sacred and honored committee’s report. We’ll see you next week with a brand new show!

STUDENT AFFAIRS - Cindy Thomas - Met Tuesday. College pictures should be up for next semester. Cathy McCosh is in charge of this. Final Week is also National Handicapped Week. Hope to have the Non-Academic Grievance Board going by next semester. Kent Bearnes will be working on this. Hope to get the SGA Logo done before the end of the semester. Would like to look into a federal grant for construction for the handicapped on campus. Also, hope to look into a rape crisis center and personal property insurance. Will not meet next week, but will meet after the meeting tonight.

It is our last report this semester. These will be included in the files. The Opinion Poll results should be turned in to my basket by Monday so that we can combine the information and tabulate the results. Brenda Funk, John Buck and Richard Suellentrop have worked hard on developing questions and obtaining volunteers for the Opinion Poll questionnaire. I would like to thank them for their hard work. Sandra Walters has gathered information on plants which would be suitable for the SGA Office. She is trying to acquire free plants through the Hort. Dept. If you have any ideas or suggestions for the reorganization of, the office, contact her.

LONG RANGE PLANNING COMM. - Jane Kittner - The major item on the May 3rd agenda was a presentation by Dick Hayter from the Environmental Research Lab.
He gave a summary of the KSU energy study submitted by the firm of Stone and Webster. The study consists of two parts: a preliminary report which summarizes short-term needs and a final report which covers the period until the year 2000.

Preliminary Report Summary (to 1980):
1. The existing boiler plant will be sufficient until 1980 assuming all 7 boilers are in use.
2. Sufficient natural gas and oil will be available, with an emphasis on oil as natural gas availability decreases.
3. Listed modifications to improve efficiency and safety of existing boilers.

Final Report (to 2000):
1. Sufficient gas and oil will be available until 1986 (100% oil by then).
2. 1986 - build first coal-fired boiler.
4. The university should continue to generate electricity.
5. Consider possibility of a federal grant to develop supplemental hydroelectric energy at Tuttle Creek.
6. Available solid waste could also be burned in the coal boilers.

Notes on coal boiler plants: The firm suggested a possible location southwest of the corner of Kimball and N. Manhattan on university property. A building to house two boilers would be approx. 50’ x 65’ x 80’ high with a 200’ high stack. The coal would be stored in silos at the plant. At today’s costs, the first boiler would be about $12.2 million and the second boiler approx. $6.3 million.

COMMITTEE REPORTS
Intercollegiate Athletic Council - Ruth Barr, Kerry Patrick, John Lewis, Jeff Hall, Jeff Crawford, Allison Luthi, Chris. Badger - Met May 7. Met Jersey Jermier, the new Athletic Director. He promised new spirit of cooperation and openness. He also asked for permission to schedule women’s events for next year and to appoint an acting-track coach to replace Deloss Dodds who is taking a position with the Big 8 effective Aug. 1. Anticipated guarantees = $45,000 - Received only $37,649. Will receive $30,000 in basketball guarantees but will have to pay out about $60,000. The restricted fees money will be withdrawn from Endowment (Wilson and Dodds collected it for their programs) and the $45,000 will go to baseball & track. Sold about 2,000 K-Blocks. Had $2,000 in donations this month. Now spending the pre-season ticket sales money to meet current expenses. Men’s Dept. over-spent about $80,000 to $90,000. $14,300 cash balance. $13,000 bill due. As of March 22, budget indicates accounts payable now due $25,105. Women’s Dept. has stayed within their budget. Have not received the $15,000 voted to them for scholarships. Have received the $15,000 voted to them for operating use, mainly travel of teams. 1975-76 income is as follows: State = $99,717, Wildkittens = $5,966, Basketball = 5,326, Volleyball = $142, Track = $416, Swimming gate = $27, Insurance = $924, Swimathon = $2,288, Athletic Council = $15,000. The insurance money was transferred from funds from endowment. Also, they should get $15,000 additional for Athletic Scholarships. Jersey promises a new business manager soon. Rather than relating our accomplishments for the year, I am afraid all we can report is defeat. Our biggest goal was to reduce spending the Athletic Dept. and we failed miserably. They spent up to $99,933 over the budget in one year. (see SGA office files for breakdown). State funds do not appear in the budget report. They were $103,035 for the Athletic Dept. last year. It also does not appear on the Univ. Annual Financial Report. A second goal was to up-grade the Women’s Athletics. We failed here also. The bulk of the money comes from the State. They receive $99,717 from the legislature. This figure does appear on the Budget Report. We did get $30,000 voted to the women and $15,000 has been put into their acct. according to the March 15, 1976 budget report. An argument against funding women has always been that they contribute very little. It is estimated that women’s athletics are assessed $45,000 per year. This goes to football to pay for a stadium used 5 or 6 times a year, for football practice; and 1 graduation. They get a very small return on their money. Another goal for this year was to see that the athlete’s housing was brought up to standard. Athletes who are single and are on scholarship are forced to stay there to retain their room and board scholarships. The dorm is not properly maintained because there is no money. There is only one janitor. In 1975-76, there was only one full-time employee, excluding the contract kitchen help. The dorm was maintained by work-study students. Almost all beds are broken. The basement of B-wing has had the carpeting soaked with sewer water. Most furniture needs replacing. Two
roofs must be reroofed. The basement is soaked almost every time it rains. Students must water-vac the water off the floor. It is deplorable that athletes are forced to live in the dorm in order to keep their scholarships. We failed in defining the role of the Intercollegiate Athletic Council. If we are an advisory board, we probably have done a poor job of advising, especially in the area of budget preparation. It appeared in the Kansas City Star that Head Coach Ellis Rainsberger was picking up trash from the playing field (football). Perhaps we should have given better advice in preparing the budget and given him some stadium help rather than in some of the other areas such as special events, coaches meals, auto expenses, etc. However, we were told it was not our function to advise. Perhaps we thought our role was that of policy. We failed there too. We voiced a policy of better purchasing procedures to keep from going over budgets, we did not enforce them. We had a policy that would reprimand any dept. that went over the budget. We issued no reprimands. It wasn’t our function to issue reprimands. We failed at policies too. If we were a monitoring body, we failed there too. We would that there were large amts. expended that we weren’t aware of. There was an expenditure of $13,061 paid out to football grad. assts. that wasn’t in the budget and we were not advised until Feb. There was $12,000 for entertainment expenses paid out to coaches that was not budgeted and the council voted to pay. People were hired for unbudgeted positions. Weight equipment was bought for the stadium without approval ($900) even when the acct. was $3,689 overspent. Telephone and telegraph went over $26,714 in one dept. alone.

Possible goals for the coming year: 1) a student should not be allowed to give his proxy to anyone except another student; 2) a student who has a record of absenteeism should resign, if he doesn’t wish to resign, then some action should be taken by the Senate or the Student Body Pres. Sub-comm. meetings are where the work is done; 3) last, but no least, find out what the function of IAC is; 4) Do what you can to up-grade the condition of the Men’s A-Dorm. Remember these men are students too. It appears that the dorm can’t go another year without repair.

SENATE OPERATIONS - Guy Seiler - Next semester, the Constitution: and By-Laws Sub-committee may bring up a bill regarding attendance at standing committee meetings. The results from the Opinion Poll are in. Still have to figure percentages. Questions involved parking lot situation and elections held last Feb.

Get anyone who is interested in running to run as a “write-in” candidate. Contact
Cindy at 539-9394 if you are interested for details.

Gerry Coffman - Still need to have the polls open and need poll workers even if
there are very few running. Will have a schedule up in the office on the bulletin
board for you to sign-up to work.

AD HOC ADVISORY COMMITTEE - Cindy Thomas - Will meet Friday at 3:30.
INTERCOLLEGiate ATHLETIC COUNCIL (IAC) - Allison Luthi - This is the year
the K-Block system will run out if it is going to. Carol Adolph, Supervisor of
Athletic Ticket Office, does not want the K-Block system. Athletic Council
postponed this for a month. Options for ticket sales (football): Athletic Dept. -
$3.50/game (5 games) - No K-Block, All seats reserved in the student section.
Students - #1 - Present System: $3.00/game (5 games) $3.00 K-Block. #2 – All
general admission season tickets in student section, No reserved seats. #3 - Taking
4 sections (23, 24, 30, 31) in the student section and making them reserve seats.
These would he used for K-Blocks. In the spring there would be open sales for
groups (a group is considered 2 or more individuals). One individual could
purchase 1 ticket and the number of K-Blocks for the number of people in his
group. That individual would represent the group and would purchase all tickets
and present his fee card. At the time of the purchase, he would select the seat
locations. The in the fall the individual representing the group would go back and
take all the fee cards of the individuals in his group and get them punched and
pick up the tickets. This would leave the option open to buy individual tickets for
$3.50/game. Considered raising the price of K-Block from $3.00 to $3.50. Trying
to draw up ideas to draw people to women’s games. Can go to a total of 14 games
(both men’s and women’s) on your season ticket.

SUB-COMM. ON THE STATUS OF WOMEN – Cathy McCosh - Will be drawing up a
pamphlet on services directed to women.
