RESOLUTION 77/78/43

RECOMMENDATIONS FOR NOON-HOUR
GYMNASIUM RULES

BY: Steve Walton, Terry Matlack, Cindy Thomas

WHEREAS students are the primary consumers of KSU Recreational Services, and

WHEREAS students formerly obtained considerable benefits from noon-hour use of the gymnasium for recreational purposes, and

WHEREAS discrimination on the basis of University status (faculty, staff, student) is an arbitrary and invidious solution to rising demands for available noon-hour gym space, and

WHEREAS the pre-existing noon-hour faculty “class” provides an insufficient justification for the exclusion of students because:

1. The agreement between HPER and the faculty establishing the restrictive period was voided when HPER transferred control of the period to Rec Services.

2. The basis of entry to the class - being a faculty or staff member - contradicted the acknowledged reason for the class - aiding the health of “older” individuals - as none of the several “older” students could be admitted to the “class”.

3. The period was not a class in any accepted sense: there was no direct supervision, no requirement for following a planned course of action, nor any tuition or credit provisions.

4. Since the period has been closed, the hour has not changed from what it had been a free and open recreational period with no elements that would justify exclusive status, and

WHEREAS the existence of a facility use fee for faculty and staff is an insufficient justification for the exclusion of students because:

1. Students, through their regular fees, support the recreational system to a degree significantly greater than that financial help provided by faculty and staff.

2. Student fees are currently financing the solution to the noon-hour problem; the Rec Complex. Student financial assistance here dwarves revenues from use fees ($3.7 million as opposed to $15,000/year).
3. Students cannot purchase use cards to obtain noon-hour admission, even if they desired to

BE IT RESOLVED THAT:

SECTION 1. Student Senate express its disapproval of the recent actions taken to close use of the gym to students over the noon-hour.

SECTION 2. Student Senate urge the new policy to be terminated at the conclusion of the current experimental stage.

SECTION 3. Student Senate urge that the policy enacted for operation after March 15, eliminate all noon-hour discrimination on the basis of University status.

RESOLUTION 77/78/44

ADMINISTRATION FUNDING OF ACADEMIC ACTIVITIES

BY: Steve Walton

WHEREAS Student Senate and the numerous College Councils are now called upon to financially support many academically-oriented activities and organizations (academically-oriented being specified as those organizations which operate to fulfill the requirements of a University course offered for credit), and

WHEREAS funding for these organizations should be provided by the University Administration rather than by the Student Activity Fee, and

WHEREAS elimination of these organizations and activities from dependency on student funds would be of considerable benefit to the financial status of Student Senate as well as the several College Councils, and

WHEREAS the funding of these organizations and activities by the University Administration would aid (in most cases) the publicizing by KSU, claimed by President Acker to be vital to the future provision of state support to certain University academic programs

BE IT RESOLVED THAT:

SECTION 1. Student Senate desires that the University Administration assume partial financial responsibility for those academically-oriented organizations and activities now currently funded by the Student Activity Fee.

BY:  Alan MacRunnels, Tommy Garrett, Cindy Thomas, Terry Matlack, Grace Hwang, Skip Boyd, Mick. Morrell, Jeff Zillinger, Stacy Norris, Rich Macha, Brian Rassette Sheree Lowe, Karla Engel, Roger Luce

WHEREAS  the economy of Kansas is predominantly based on agriculture, and

WHEREAS  Kansas State University is one of the oldest land-grant colleges in the United States, and

WHEREAS  a large portion of K-State students comes from an agricultural background, and

WHEREAS  we are sensitive to the Kansas farmer’s problems and concerns

BE IT RESOLVED THAT:

SECTION 1.  The 17th of February should be known as Agricultural Awareness Day and shall be used to help inform all students concerning the agricultural issues of today.

SECTION 2.  Each class on this date is encouraged to use all or part of their class time for student discussion about the current agricultural crisis.
