J.M. Shawn Hutchinson, Kansas State University
Acknowledgements

Maria Lane extends a special thank you to the wonderful students, staff, and faculty from the Department of Geography & Environmental Studies at the University of New Mexico (UNM) who have contributed to the planning and hosting of all conference events. The UNM conference planning assistant, Willard Hunter, deserves particular gratitude for his heroic logistical coordination efforts. Thanks also to UNM College of Arts & Sciences for early financial support and for continued investment in Geography & Environmental Studies over the years. SWAAG President Murray Rice provided invaluable feedback and support during the conference planning process. Thanks, as well, to past SWAAG conference organizers Darrel McDonald (Stephen F. Austin State University) and Michaela Buenemann (New Mexico State University) for sharing their insights over the past year.

Shawn Hutchinson thanks the students, staff, and faculty from the Department of Geography at Kansas State University (KSU) who assisted with web site design, maintenance and construction of the conference program, and coordinating student competitions. Special thanks go to Bill Wetherholt, Lianling Su, Avantika Ramakar, Megan McHaney, and Lisa Harrington. Thanks, as well, go to Dean Peter Dorhout, KSU College of Arts & Sciences, and Chuck Martin, KSU Department of Geography, who volunteered critical early financial support that helped make this conference successful. The GPRM Board of Directors provided valuable advice and guidance during conference planning. Nate Eidem (University of Nebraska – Kearney) organized this year’s GPRM GeoBowl event.

Both Maria and Shawn are grateful for Mona Domosh and Scott Collins for their participation and the assistance provided by Patrick Patten of UNM for the design and maintenance of the conference’s online registration store.

UNM Bookstores
Where your dollars stay on campus
Parking – Complimentary parking is included for all conference guests, both local day guests as well as guests lodging overnight. The hotel’s street address is 125 S Second Street NW. The hotel sits at the corner of Second and Copper Streets. While our address is Second Street, the valet drive is on the COPPER STREET side of the building.

Wireless Internet – Complimentary wireless access is available throughout the hotel, including meeting rooms. No password is needed. However, when attempting to connect to the Andaluz wireless, the user’s device will pop open a browser window, which will auto-direct to the hotel’s web site. To connect wirelessly, the user must allow the connection to the hotel’s web site to take place. Once the device lands on the page, the wireless is connected.

Registration and Sponsors – The registration booth and sponsor exhibits are located on the second floor mezzanine.
Parking – All conference events at the Convention Center will be held in the West building, which is between 2nd and 3rd streets. Parking, however, will be in the East Parking Garage, located on Martin Luther King and Broadway. The cost is $6.00 per day.

Wireless Internet – Complimentary wireless access is available throughout the Convention Center courtesy of the City of Albuquerque. To access this free wireless service, select ConventionFreeWifi and authenticate through any browser. Please note that this free service is unsecured and unsupported.

Posters – Poster sessions will be held in the lower level atrium.

Registration and Sponsors – The registration booth and sponsor exhibits are located in the lower level atrium.
Luncheon Presentation
Friday, October 24 from 12:40 PM – 1:40 PM
Ballroom A (Convention Center)

“Ecological Convergence and Contingency in North American and South African Grasslands”

Scott Collins
Regents Professor of Biology
University of New Mexico

Abstract: Ecologists often argue about the generality of their site based research. We conducted a comparative study of mesic grassland ecosystems at Konza Prairie, Kansas, and Kruger Park, South Africa to determine how these two geographically isolated mesic grasslands responded to common drivers of fire, grazing and interannual climate variability. Although these systems differ in evolutionary history and herbivore diversity, many grassland processes (productivity, plant species diversity) responded similarly in these two systems. Therefore, despite historical contingencies, comparative analyses of geographically disparate systems can lead to increased generality in ecological understanding.

Dinner and Awards Banquet Keynote
Friday, October 24 from 6:30 PM – 9:00 PM
Albuquerque Railyards

“From the U.S. South to the Global South: Practicing Development at Home”

Mona Domosh
President, Association of American Geographers
Joan P. and Edward J. Foley, Jr. 1933 Professor of Geography
Dartmouth College

Abstract: Drawing on a range of works that extend from gendered historical analyses of colonialism to critical histories of development, and based on archival research in Alabama, Arkansas, and Mississippi, I argue in this talk that what we now call international development – a form of hegemony different from but related to colonialism – needs to be understood not only as a geopolitical tool of the cold war, but also as a technique of governance that took shape within the realm of the domestic and through a racialized gaze. I do so by tracing some of the key elements of the United States’ international development practices in the postwar era to a different time and place: the American South, a region considered ‘undeveloped’ in the first decades of the 20th century, and the agricultural extension practices that targeted the rural farm home and farm women, particularly African-American women. Thus I am able to interrogate two relatively unexamined elements that are key to understanding the making of American international development: that much of its early focus was on governing through biopolitical practices of the domestic (food preparation, health, and sanitation), and that those practices were based on the agricultural extension work of the United States Department of Agriculture in the American South.
Special Sessions

Thursday, October 23, 2014

A03 Jobs in Geohumanities Panel  |  Valencia (Andaluz Hotel)
Organized by Laurel C. Smith (University of Oklahoma)
This discussion panel considers the concerns about jobs that Robert Wilson raised in his commentary on Envisioning Landscapes, Making Worlds: Geography and the Humanities and GeoHumanities: Art, History, Text at the Edge of Place. These concerns range from academic positions in geography departments to career opportunities for undergraduate and graduate students pursuing geography degrees. Panel participants will draw on the Book Review Symposium, personal efforts, and institutional experiences to discuss these matters.

B01 Spatial Thinking  |  Casa Blanca (Andaluz Hotel)
Organized by Sarah Bednarz and Robert Bednarz (Texas A&M University)
This session welcomes presentations concerning incorporating, applying, and encouraging spatial thinking in geography courses, supporting and highlighting spatial thinking through GIST, assessing spatial thinking skills, and teaching spatial thinking in geography departments. Presentations about pedagogical and theoretical aspects of spatial thinking will be featured.

Friday, October 24, 2014

C01/D01 Land Change Science  |  Cochiti (Convention Center)
Organized by the Landscape Land Use Change Institute, Kirsten de Beurs (University of Oklahoma) and Jason Julian (Texas State University)
Complex problems associated with broad scale environmental issues cannot be addressed by individual scientific disciplines but instead should be tackled by a consortium of researchers from a variety of different fields. Land change science is one of these new interdisciplinary fields that have emerged as a fundamental component of global environmental change research. Land change science is broadly focused on observation, understanding, modeling, and assessing coupled human-environment systems in a spatial fashion. As we work to understand increasingly complex problems such as interactive effects among climate change, land use, and water resources, this need for truly interdisciplinary science will only increase. With this session, we aim to bring together the SWAAG and GPRM communities interested in land change science.

C02 U.S. Electoral Geography  |  Iseleta-Jemez (Convention Center)
Organized by Robert Watrel (South Dakota State University) and Fred Shelley (University of Oklahoma)
The purpose of this special session is to present material from the Atlas of the 2012 Elections, which is being published in late 2014 by Rowman and Littlefield. The session will include presentations by some of the contributors to the atlas, followed by a panel discussion led by those of the atlas' editors who will be in attendance at the conference. The panel discussion will focus not only on the atlas itself but also on the implications of the material in the atlas for the elections of 2014 and 2016.
Friday, October 24, 2014

**D02 Graduate Program Information Session |** Isleta-Jemez (Convention Center)

Organized by Murray Rice (University of North Texas)

This year’s joint regional meeting will include a session featuring the geography graduate programs in the SWAAG and GPRM regions. All graduate program representatives are invited to participate. The Graduate Program Information Session (GPIS) is organized to provide time for each participating program to briefly summarize their unique features. We also aim to provide some time for potential students to talk one-on-one with program representatives. In past SWAAG meetings, we have found the GPIS to be beneficial for both potential students and the participating programs.

**E01 Law’s Geographies |** Cochiti (Convention Center)

Organized by Melinda Harm Benson (University of New Mexico)

Legal geography is a growing new field that not only brings a geographic perspective to the applied, pragmatic practices of law but also provides a critical investigation into law’s spatialities. This session is a forum for a spectrum of legal geographies, both critical and applied. Papers will address issues related to what legal geography has to offer practice in the legal realm, and what legal research and activism have to offer geography as a discipline for a range of theoretical and methodological perspectives.

**E02 Collaboration and Outreach |** Isleta-Jemez (Convention Center)

Organized by Murray Rice (University of North Texas)

Listen to and interact with people who have experience in collaboration and outreach activities from various sub-fields within geography. This session will focus on the challenges, suggestions, positives, and negatives associated with work involving an extended network of people from within and outside of geography.

**F01 Academic Publishing Panel |** Cochiti (Convention Center)

Organized by Melinda Harm Benson (University of New Mexico)

Editors from four journals and a publisher will share advice and tips for getting your work in print.
**Conference at a Glance**

A01 Sense of Place  | Casa Blanca (Andaluz Hotel)

- **Translation and Sense of Place**  
  *Constantine Hadjilambrinos and Diane Thiel*  
  University of New Mexico

- **Exploring Place Attachment in Kansas’ Central Great Plains: A Jewell County Pilot Study**  
  Bill Wetherholt  
  Kansas State University

- **Four Symbolic Boundaries of the American West**  
  John B. Wright  
  New Mexico State University

- **Pioneer Life on Glass: The Balcom-Green Collection**  
  Jason H. Combs (1) and Kenneth Harders (2)  
  (1) University of Nebraska – Kearney, (2) Wood River, Nebraska

- **Cultural Planning and Geographical Imaginations: The Role of Affective Mapping in Revealing/Re-valuingPlaces**  
  Joni M. Palmer  
  University of New Mexico

A02 Geospatial Techniques 1  | Majorca (Andaluz Hotel)

- **Best Practices for Tethered Weather Balloon Mapping**  
  *Su Zhang, Christopher Lippitt, Susan Bogus, and Andy Loerch*  
  University of New Mexico

- **Vegetation Affects on LIDAR LAS Data**  
  Bruce V. Millett  
  South Dakota State University

- **Photogrammetrically Measuring Dryland Soil Erosion from a UAS Platform**  
  Jeffrey K. Gillan (1) and Jason Karl (2)  
  (1) USDA Agricultural Research Service, New Mexico State University, (2) USDA Agricultural Research Service

- **Using Acoustic as Remote Sensing**  
  Suzi Wiseman (1) and Preston S. Wilson (2)  
  (1)Texas State University – San Marcos, (2) University of Texas

- **K-Vec: A Global and Cross-Scale Analysis Method of Vector Autocorrelation**

Paper Session A: 1:00 PM – 2:40 PM

A03 Jobs in Geohumanities Panel | Valencia (Andaluz Hotel)

Organized by Laurel C. Smith (University of Oklahoma)

AAG Executive Director Douglas Richardson co-edited two books that were published by Routledge Press in 2011: *Envisioning Landscapes, Making Worlds: Geography and the Humanities* and *GeoHumanities: Art, History, Text at the Edge of Place*. Each of these collections feature essays that embody the sort of scholarship increasingly collected beneath the rubric of the geohumanities. As evident in the marvelous Book Review Symposium featured in the April 2013 issue of *Progress in Human Geography*, these books have generated rich dialogue. And they likely informed the AAG’s decision to create a third journal devoted to this field of inquiry.

Inspired by AAG President Mona Domosh’s Presidential Column in the July 2104 AAG Newsletter, “Strategic Essentialism and Radical Intra-Disciplinarity,” I wonder whether the moniker of geohumanities (or geoHumanities) provides an opportunity to defend and/or augment the work of humanities-oriented geographers? Could it offer leverage for creating research clusters and degree tracks? If so, we need to gird our loins for very pragmatic and often panicked conversations about jobs with students (and their parents).

Accordingly, this discussion panel considers the concerns about jobs that Robert Wilson raised in his commentary on *Envisioning Landscapes, Making Worlds: Geography and the Humanities* and *GeoHumanities: Art, History, Text at the Edge of Place*. These concerns range from academic positions in geography departments to career opportunities for undergraduate and graduate students pursuing geography degrees. Panel participants will draw on the Book Review Symposium, personal efforts, and institutional experiences to discuss these matters.

Discussants:
- Laurel C. Smith – University of Oklahoma
- Mona Domosh – Dartmouth College
- Pete McCormick – Fort Lewis College
- Fred Gibbs – University of New Mexico
B01 Spatial Thinking | Casa Blanca (Andaluz Hotel)

Organized by Sarah Bednarz and Robert Bednarz (Texas A&M University)

- Research In, For, and About Geospatial Technologies and Learning
  *Sarah Bednarz (1), Tom Baker (2), Sarah Battersby(3), Al Bodzin (4), Bob Kolvoord (5), Steven Moore (6), Diana Sinton (7), David Uttal (8)
  (1) Texas A&M University, (2) ESRI and University of Kansas, (3) University of South Carolina, (4) Lehigh University, (5) James Madison University, (6) University of Redlands, (7) Executive Director, UCGIS and Cornell University, (8) Northwestern University

- Spatial Thinking in Education: Implementation, Assessment, Technology, Recommendations
  Robert S. Bednarz
  Texas A&M University

- Strategic Planning for K-12 Geography Education in New Mexico: Recent Activities of the New Mexico Geographic Alliance
  M.N. DeMers
  New Mexico State University

- Pikas in the Peaks: An Applied Geography Exercise Utilizing Minimal GIS
  Grant J. Hamilton
  Department of the Interior-VISTA Team/Groundwork Doña Ana

B02 Migration and Ethnicity | Majorca (Andaluz Hotel)

- Volatility and Persistence in 19th Century California Family Migration
  *Samuel M. Otterstrom
  Brigham Young University

- Immigration, Ethnicity and Community Formation in the Oklahoma City Metropolitan Area
  Michelle Brym, Clarissa Everly, and Kane Watkins
  University of Central Oklahoma

- Internal Migration in Bangladesh: A Comparative Study of Coastal, Environmentally Challenged, and Other Districts
  Bimal Kanti Paul
  Kansas State University

- Twitter, ‘Hate’ Maps, and Immigrants: The Viability of Mapping Tweets to Identify Anti-Immigrant Places and Sentiments
  Mary Sue Passe-Smith and John Passe-Smith
  University of Central Arkansas
Friday, October 24, 2014
Paper Session C: 9:00 AM – 10:40 AM

C01 Land Change Science 1  |  Cochiti (Convention Center)
Organized by the Landscape Land Use Change Institute, Kirsten de Beurs (University of Oklahoma) and Jason Julian (Texas State University)

- **Comparing Methods for Land Surface Temperature Retrieval over Heterogeneous Land Cover Using Landsat-5 TM Thermal Infrared Data**
  Emily Windahl and Kirsten de Beurs
  University of Oklahoma

- **Role of Environmental Factors in the Growth of West African Cities: A Case of Kumasi of Ghana and Ouagadougou of Burkina Faso**
  Pradeep Adhikari, and Kirsten M de Beurs
  University of Oklahoma

- **Urban Dynamics of a Shrinking City: An Analysis of Detroit**
  Emily S. Thompson, and Kirsten M. de Beurs
  University of Oklahoma

- **Land Cover Change Analysis in the Fastest Growing City in the United States**
  Kumudan Grubh and Nate Currit
  Texas State University

- **Water Resources and Protected Places in the South-Central United States**
  *Jason P. Julian (1,2), Graham Daly (1,2), Erin D. Dascher (1), Jessica Y. Espinoza (1), Harrison W. Flores-Ortiz (1), and Kristen B. Newcomer (1,2)*
  (1) Texas State University, (2) Landscape Land Use Change Institute

C02 U.S. Electoral Geography  |  Iseleta-Jemez (Convention Center)
Organized by Robert Watrel (South Dakota State University) and Fred Shelley (University of Oklahoma)

  *Robert H. Watrel (1), Gerald M. Webster (2), Fred M. Shelley (3)*
  (1) South Dakota State University, (2) University of Wyoming, (3) University of Oklahoma

- **Texas Elections 2014: Mapping Wendy Davis’s Prior Electoral Credibility**
  Brooks Heitmeier
  University of Oklahoma

- **Micropolitan County Voting in the 2012 Presidential Election**
  Jason Combs
  University of Nebraska - Kearney

- **Discussants**
  - Jason Combs – University of Nebraska – Kearney
  - Chris Maier – South Dakota State University
  - Fred Shelley – University of Oklahoma
  - Robert Watrel – South Dakota State University
  - Gerald Webster – University of Wyoming
C03 Environment and Hazards | Navajo-Nambe (Convention Center)

- **Condit Dam Removal, Washington: Perceptions and Decision-Making**
  *Laura Wallace and Lisa M.B. Harrington*
  Kansas State University
- **The Geography of “No”: Further Adventures in Oklahoma’s Wind Power Development**
  Steve Stadler (1) and J. Scott Greene (2)
  (1) Oklahoma State University, (2) University of Oklahoma
- **Plan it and they Will Come: An Assessment of Recreation Potential and User Interests on the Green River in Utah**
  Jonathan Bowler
  University of Wyoming
- **Lives Entwined: The Human Obligation to Companion Animals, Livestock, and Wildlife Affected by Natural Hazard Events**
  Connie Brownson
  Texas State University
- **Potential Uses of Social Vulnerability Assessments to Support Decision Making in the Colorado Dam Safety Branch**
  Laura E. Ferré (1), Bill McCormick (2), and Deborah S.K. Thomas (1)
  (1) University of Colorado Denver, (2) Colorado Dam Safety Branch, Colorado Division of Water Resources

C04 Physical Geography 1 | Santa Ana (Convention Center)

- **Avian Diversity Increased Compared to Grinnell-Storer’s Cross-Section through Yosemite**
  *Carol. L. Campbell*
  New Mexico State University
- **Mapping Riparian Zones in the Southern Rockies Ecoregion: A Multi-scale, Hierarchical Model**
  Jessica Salo (1) and David Theobald (2)
  (1) University of Northern Colorado, (2) Conservation Science Partners
- **A Proof of Concept Study on the Evolution of Plant Community Fire Adaptation**
  Thomas Brussel (1), Thomas A. Minckley (1), Simon Brewer (2), Colin J. Long (3), and Mitchell J. Power (2)
  (1) University of Wyoming, (2) University of Utah, (3) University of Wisconsin Oshkosh
- **The Footprint of Human Impacts in Cold Climates: Lessons Learned at McMurdo and Palmer Stations, Antarctica**
  Andrew Klein, Paul Montanga, Terry Palmer, José Sericano, Steve Sweet, Terry Wade, Mahlon Kennicutt II
  Texas A&M University
- **Service and Research Opportunities through Peace Corps Response**
  Curt Holder
  University of Colorado
C05 Place and Perception | Zuni-Tesuque (Convention Center)

- Don’t it Make My Red State Blue: A Spatio-Temporal Analysis of Oklahoma’s Voting-Registration Mismatch
  *Jonathan C. Comer
  Oklahoma State University

- Goree Island: An American Political Pilgrimage; Discourse Analysis Examining the Processes of Place Perception in Relation to Public and Political Actors
  Danielle D. Guthrie
  South Dakota State University

- Mapping Community Formation on the Plains
  Robert C. Shepard and Rebecca Wingo
  University of Nebraska-Lincoln

- Mapping Environmental Justice in Lubbock Through Time: A Mixed-Methods Historical Perspective

  Yan Lin (1) and Xi Gong (2)
  (1) South Dakota State University, (2) Texas State University
D01 Land Change Science 2 | Cochiti (Convention Center)

Organized by the Landscape Land Use Change Institute, Kirsten de Beurs (University of Oklahoma) and Jason Julian (Texas State University – San Marcos)

- **Exploring Land Cover Change in the Oklahoma Cross Timbers**
  Emma L. Kuster and Renee A. McPherson
  University of Oklahoma

- **Monitoring and Classifying Forest Disturbances in Southeastern Oklahoma from 2000 to 2011 using High Spatiotemporal Resolution Imagery**
  Trung V. Tran (1,3), Kirsten M. de Beurs (1,3), and Jason P. Julian (2,3)
  (1) University of Oklahoma, (2) Texas State University, (3) Landscape Land Use Change Institute

- **A Unified Disturbance Analysis for Forests and Grasslands in New Zealand**
  Braden Owsley (1,3), Kirsten de Beurs (1,3), Jason Julian (2,3)
  (1) University of Oklahoma, (2) Texas State University, (3) Landscape Land Use Change Institute

- **Agricultural and Residential Land-Use Effects on North Eastern Cross Timbers Forest Structure and Composition**
  Ingrid Dunn
  University of North Texas

- **Agricultural Changes in European Russia: Implications for Food Security**
  *Kirsten M. de Beurs
  University of Oklahoma

D02 Graduate Program Information Session | Isleta-Jemez (Convention Center)

Organized by Murray Rice (University of North Texas)

**Participating Universities and Program Representatives:**

- Fort Hays State University - Keith Bremer
- Kansas State University – Douglas Goodin
- South Dakota State University – Darrell Napton
- Texas State University – Paul Adams
- University of Colorado Colorado Springs – John Harner, Emily Skop, and Curtis Holder
- University of Montana - Christiane von Reichert
- University of New Mexico - John Carr
- University of New Orleans – Juana Ibanez
- University of North Texas – Murray Rice
- University of Oklahoma - Aondover Tarhule, Deborah Marsh, Fred Shelley, Darren Purcell
- Oklahoma State University – Jon Comer
- University of Texas – Paul Adams
- University of Utah – George Hepner
D03 Sustainability | Navajo-Nambe (Convention Center)

- Littering in Context(s): Using a Spatially-based Experiment to Explore Geographic Differences in an Antisocial Behavior
  *Russell Weaver
  Texas State University
- Comparative Analysis of Waste Management at Kansas State University and the University of Ghana, Legon
  Matt DeCapo
  Kansas State University
- Learning Geography and Sustainability: A Focus Group Analysis
  Ashlee Tziganuk and Travis Gliedt
  University of Oklahoma
- Plastic Bag Use Analysis in Denton, Texas
  Ashley Carlisle and Amanda McDaniel
  University of North Texas
- Scaling Environmental Value: A Non-Profit and Business Comparison
  Alex Lyakhov, Preston Hartman, and Travis Gliedt
  University of Oklahoma

D04 Physical Geography 2 | Santa Ana (Convention Center)

- Mapping Spatial Distributions of Stream Power and Channel Change along a Gravel-bed River in Northern Yellowstone
  *Devin M. Lea and Carl J. Legleiter
  University of Wyoming
- Distribution of Rock Glaciers in New Mexico with Potential Applications for Climate Research
  Bryan Kinworthy
  University of New Mexico
- Remote Sensing for Monitoring Surface Coal Mine Reclamation in Drylands
  Robert Sabie and Michaela Buenemann
  New Mexico State University
- A Volumetric Lake Hydrology of Devils Lake, North Dakota: 1950-2010
  P.E. Todhunter
  University of North Dakota
- Dynamical Downscaling for Paleoclimate Simulations of Tropical Cyclones in the Last Glacial Maximum Using a 36-km WRF Tropical Channel Regional Climate Model
  Jinwoong Yoo (1), Joseph Galewsky (1), Suzana J. Camargo (2), and Robert L. Korty (3)
  (1) University of New Mexico, (2) Lamont-Doherty Earth Observatory, (3) Texas A & M University
Friday, October 24, 2014
Paper Session D: 10:50 AM – 12:30 PM and Luncheon: 12:40 PM – 1:40 PM

**D05 Political Ecology | Zuni-Tesuque (Convention Center)**

- **Framing “Foothills in Flux”: Considering Wine and the Consumption and Production of Landscapes in the Sierra Nevada Foothills of California**
  *Colleen C. Hiner*
  Texas State University

- **Land Tenure and Tourism Development in Nicaragua: A Case Study from Playa Gigante**
  *Anna G. Sveinsdóttir*
  University of Denver

- **Social and Environmental Impacts of Big-Leaf Mahogany (*Swietenia macrophylla*) Logging on Peruvian Indigenous Communities**
  *Aaron A. P. Groth*
  University of Texas

- **Formalizing Indigenous Land Tenure in La Moskita, Honduras: The Value of Participatory Research Mapping in Identifying and Mitigating Conflict**
  *Peter H. Herlihy, Taylor A. Tappan, Matthew L. Fahrenbruch, John H. Kelly, and Jerome Dobson*
  University of Kansas

- **Mobility and Sustainable Transportation in Latin America: Successes, Failures, and Diffusion of Ideas**
  *Sylvia Arriaga Brady*
  University of Denver

**12:40 PM – 1:40 PM**

**Luncheon | Ballroom A (Convention Center)**

Sponsored by College of Arts & Sciences, University of New Mexico

- **Opening Remarks**: Dr. Mark Peceny, Dean, College of Arts & Sciences, University of New Mexico
- **Presentation**: Dr. Scott Collins, University of New Mexico
E01 Law’s Geographies | Cochiti (Convention Center)
Organized by Melinda Harm Benson (University of New Mexico)

- **Methodological Mistakes in Legal Geography**
  K. Maria D. Lane
  University of New Mexico

- **MAN vs. MANATEE: The Legal Framing of Neoliberal Environmental Discourses**
  John Carr and Tema Milstein
  University of New Mexico

- **Terror as Usual: On the Legal Geographies of Indian Drinking in New Mexico**
  David Correia
  University of New Mexico

- **Doctrine of Difference: Cobell v. Salazar and the Failure of Indian Trust**
  Laura Harjo
  University of New Mexico

- **Regulator Takings: Rights or Relations?**
  *Melinda Harm Benson
  University of New Mexico

E02 Collaboration and Outreach | Isleta-Jemez (Convention Center)
Organized by Murray Rice (University of North Texas)

**Discussants:**
- Michaea Buenneman – New Mexico State University
- J. Scott Greene – University of Oklahoma
- John Harrington, Jr. – Kansas State University
- Murray Rice – University of North Texas
- Deborah S.K. Thomas – University of Colorado Denver

E03 Plants and Agriculture | Navajo-Nambe (Convention Center)

- **Engaging Agricultural Stakeholders and Communicating Climate Change Risk with a WebGIS-based Crop Calendar**
  Lianling Su and J.M. Shawn Hutchinson
  Kansas State University

- **Plant Diffusion within and Scientific Knowledge of the Columbian Exchange: The Importance of Social Processes**
  *Chris S. Duvall
  University of New Mexico

- **“It’s Used By the Dissipated and the Deprived”: Transforming Perceptions of Hemp in the Anglo-Atlantic World**
  Bradley J. Borougerdi
  Tarrant County College
• Calibration and Validation of the FAO AquaCrop Model for Rainfed Cereals in Nigeria, West Africa
  U. Akumaga
  University of Oklahoma

• Land Sharing vs Land Sparing: Agricultural Management Impact on Pollinator Abundance and Crop Production in an Urban Matrix
  Grace Kellner
  University of Denver

E04 Geospatial Techniques 2| Santa Ana (Convention Center)

• A Spatially-distributed Hydrological Modelling and Visualization Framework
  *Feifei Pan
  University of North Texas

• Route Originality between Competing Automobile Route Guides
  John T. Bauer
  University of Nebraska - Kearney

• Using Qualitative GIS and Sketch Mapping to Assess Individual Walking Behavior, Perceptions, and Experiences
  Meghan Mooney
  University of Denver

• Developing a Data Discovery Tool for Interdisciplinary Science by Leveraging the Combination of a Web-based Mapping Application and Geosemantic Searching
  Dylan Perkins
  University of Wyoming

• Accessibility to Higher Education Geography Programs in Louisiana
  R.V. Rohli (1), P.E. Binford (1), and J. Ibañez (2)
  (1) Louisiana State University, (2) University of New Orleans

E05 Water Resources | Zuni-Tesuque (Convention Center)

• Comparing the Spatial Distribution of Texas Municipal Water Consumption Drivers using Linear and Non-linear Data Reduction Methods
  *Matthew H. Connolly (1), Ryan Hile (2), John Stevens (2), Erich Rentz (2), and Simon Brewer (2)
  (1) University of Central Arkansas, (2) University of Utah

• Water Management in the Southern High Plains of Texas: An Institutional Analysis of Water Governance
  Caroline Pavlowsky
  University of Oklahoma

• Pastoral Livelihoods and Household Water Management Strategies in the Central Argentine Andes
  Julie Parker
  University of North Texas

• Examining Resiliency-based Approaches to Watershed Management in the Lake Champlain Basin
  Christopher Brown
  New Mexico State University

• Enhancing Social-Ecological Resilience in the Colorado River Basin
  Nathan T. Eidem
  University of Nebraska – Kearney
Friday, October 24, 2014
Poster Session 2:  3:30 PM – 5:20 PM

P02  Land Change Science, Physical Geography, and Geospatial Techniques | Lower
Level Atrium South Alcove (Convention Center)
Posters may be set up beginning at 1:50 PM and must be removed no later than 5:30 PM

- A Geospatial Analysis and Geoheritage Investigation of Land Use Practices In The Upper Pecos River Valley, New Mexico, USA
  Amanda D. Aragón, Joe P. Zebrowski, Michel S. Petronis
  New Mexico Highlands University

- The Influence of Local Habitat Variability on White-tailed Deer (Odocoileus virginianus) Body Size at Fort Hood, Texas
  Amy Eddins and Steven Wolverton
  University of North Texas

- Using GIScience and Gravity Modeling to Predict UNK’s Freshman Class
  Ashley Larsen and Paul Burger
  University of Nebraska at Kearney

- Is the ‘Loper Fan’ a True Fan?
  Ashley Larsen, Emily Kaslon, and Jeremy Dillon
  University of Nebraska at Kearney

- Virtual Environments and Spatial Awareness in Adolescents: A Study in Virtual Tours at Southwestern University
  Brandee Knight and Jen O’Neal
  Southwestern University

  Clarissa Everly (1) and Bingqing Liang (2)
  (1) University of Central Oklahoma, (2) University of Northern Iowa

- Study on the Stream Temperature Change in Local Paradise Watershed, Pennsylvania
  He Jin (1) and Shixiong Hu (2)
  (1) Texas State University, (2) East Stroudsburg University of Pennsylvania

- Fracking Site Identification in Williston, North Dakota
  Jose DeJesus
  United States Air Force Academy

- New Geologic Mapping and Optical Ages from Platte River Floodplain and Terrace Alluvium in the Kearney Quadrangle, South-Central Nebraska, USA
  Jeremy S. Dillon (1), Paul R. Hanson (2), Jacob Bruihler (2), and Leslie M. Howard (2)
  (1) University of Nebraska at Kearney, (2) University of Nebraska-Lincoln

- Assessing Post-Hurricane Rita & Ike Sedimentation on the McFaddin National Wildlife Refuge: Implications for Coastal Marsh Aggradation
  Harry F.L. Williams, Joshua Hodge
  University of North Texas

- Supervised Classification’s Usefulness in Determining Population of Urban Regions
  Jacob Lee
  United States Air Force Academy

- Soil Carbon Pools and their Spatial Variability along Environmental Gradients in New South Wales, Australia
  Michaela Buenemann (1), Heather Throop (1), David J. Eldridge (2)
  (1) New Mexico State University, (2) University of New South Wales (Australia)
Spatiotemporal Analysis of Growing Season Length and Freeze Dates as a Measure of Climate Change for Agricultural Producers in Kansas

GeoBowl, Business Meetings, and Banquet and Awards Dinner

GPRM GeoBowl Competition: 3:45 PM – 6:15 PM

Preliminary Rounds | Valencia, Majorca, Catalina (Andaluz Hotel)
Championship Round | Majorca (Andaluz Hotel)

Region Business Meetings: 5:30 PM – 6:30 PM

GRPM Business Meeting | Cochiti (Convention Center)
SWAAG Business Meeting | Jemez-Isleta (Convention Center)

6:30 PM – 9:00 PM

Banquet and Awards Dinner | Historic Albuquerque Railyards

KANSAS STATE
College of Arts and Sciences

Sponsored by College of Arts & Sciences, Kansas State University

• Bar Opens – 6:30 PM
• Dinner Served – 7:15 PM
• Program Begins – 7:45 PM
  o Opening Remarks: Dr. Charles Martin, Kansas State University
  o Keynote Presentation: Dr. Mona Domosh, Dartmouth College
  o Acknowledgements: Dr. K. Maria D. Lane, University of New Mexico
  o Presentation of Student Awards

• Notes:
  o Shuttle service from Andaluz Hotel to Railyards begins at 6:20 PM and ends at 7:20 PM.
  o Shuttle service from Railyards to Andaluz Hotel begins at 9:00 PM and ends at 10:00 PM
  o The Albuquerque Railyards is a partial open air venue. Attendees should come prepared for cool weather with warm jackets!
Field Trips
Meet in Andaluz Hotel Lobby; Depart from Copper Avenue Entrance

Albuquerque’s Public Art
Host: Joni M. Palmer, University of New Mexico
Duration: Half Day (8:30 AM – 11:30 PM)
Recommended: Urban touring clothes and water bottle.
Cost: $5.00

This field trip serves as an introduction to, and exploration of, Albuquerque’s public art and cultural/urban geography. Albuquerque’s public art program just celebrated 35 years, marking it as one of a dozen of the early 1% programs in the United States. We will start at Albuquerque’s City Hall, where the Public Art Program Manager will provide a brief overview of the public art program before we embark on an urban exploration of some of the highlights of the collection (ranging from early pieces to more recent installations).

From Conquistadors to Casinos: The Cultural Landscapes of I-40
Host: Jeffrey Smith, Kansas State University
Duration: Full Day (8:30 AM – 5:30 PM)
Recommended: Sturdy walking shows, water bottle, and long pants.
Cost: $35.00 (includes transportation and lunch)

This field trip explores both Indigenous- and Spanish-settled communities west of the Duke City. Emphasis is placed on land use patterns, water rights and usage, religious practices, and contemporary economic livelihood. Lunch (included in the price) will feature local Nuevo Mexicano cuisine.

Decoding the Myth of Santa Fe
Host: John Carr, University of New Mexico
Duration: Full Day (8:30 AM – 5:00 PM)
Recommended: Sturdy walking shows, water bottle, and long pants.
Cost: $10.00 (includes train ticket; lunch on your own)

This field trip serves as an introduction to and a deconstruction of Santa Fe’s urban geography. At once one of the oldest European settlements in the US, a pioneer of urban “place marketing,” and an increasingly important node in transnational networks of art, tourism, and biotech research, Santa Fe is one of the most unique and engaging cities in North America. This field trip traces the ways that competing ideas of history, authenticity, modernity, progress, and citizenship manifest in the built environment.
**Satuday, October 25, 2014**

**Field Trips**

Meet in Andaluz Hotel Lobby; Depart from Copper Avenue Entrance

---

### Landscapes Remnants of the Hispano Homeland

**Host:** Brock Brown (Texas State University) and Richard Nostrand (University of Oklahoma, Emeritus)

**Duration:** Full Day (8:00 AM – 4:00 PM)

**Recommended:** Sturdy walking shows, water bottle, and long pants.

**Cost:** $25.00 (includes transportation; lunch on your own at Plaza Hotel in Las Vegas)

The archaic folk culture that evolved in Northern New Mexico was unique among North American Spanish Homelands. The Pecos Enclave provides enduring examples of landscape remnants of this disappearing cultural expression. Traveling through the San Miguel del Bado Land-grant, we will visit tiny villages, explore an acequia system, and observe landscape features such as long lots, old churches, and crumbling urban landscapes. El Cerrito, the village where we will spend the most time, has been recreated in the virtual space in Second Life where students can attend a field school with avatars. The link [http://vimeo.com/49795972](http://vimeo.com/49795972) will take you to a four minute video overview and is recommended for viewing before the field trip.

---

### Urban Wildlife Refuges and the Future of Flood Control

**Host:** John Kelly and Melinda Harm Benson (University of New Mexico)

**Duration:** Half Day (8:30 AM – 12:30 PM)

**Recommended:** Sturdy walking shoes, water bottle, and long pants.

**Cost:** $18.00

Monsoonal rain patterns and mountain backdrops result in a complex and interesting stormwater management challenge for the City of Albuquerque. This field trip will tour the Albuquerque Metropolitan Arroyo Flood Control Authority projects for flood control, including the Valle de Oro Urban Wildlife Refuge, a wetlands restoration project that will use the city’s stormwater runoff to help create Albuquerque’s first urban wildlife refuge.
